Additional Sewer Tapping Fee Established By Council

Circleville Council Tuesday passed an ordinance providing for an additional sanitary sewer tapping rates within the city — an ordinance that had been vetoed Dec. 31 by former Mayor Richard Gerhardt in his last action as mayor.

The additional fee is in the amount of \$200 for residences, \$200 per unit for multiple family residences, \$400 for the first commercial unit and \$300 for each additional commercial unit and \$750 for each industrial unit.

The additional fee was sought by the Department of Public Utilities. Councilmen were unanimous in their decision to override the former mayor's veto. The utilities department felt the additional fee was needed because of the rapid growth of the city and the overload it was causing on the sanitary sewer system.

An ordinance authorizing Atwood Jones, director of public service, to advertise for bids for a 1972 pickup truck using a 1961 Dodge pickup for a trade-in was held to a first reading.

DAVID Crawford, chairman of council's service committee, suggested that all members of council take time to visit the service department before the next meeting to view the condition of the truck to be replaced.

An ordinance authorizing the service department to advertise for bids for materials needed on a per unit basis was held

to a first reading. The materials include bituminous aggregate base, aggregate base, sub base, asphaltic concrete, traffic compacted surface, gravel, etc.

A resolution directing the clerk of city council to have all alley and street vacations and dedications within Circleville recorded at the Pickaway County Recorder's

office was approved.

COUNCIL BRIEFS

Tuesday's session of Council was one of the briefest ones recently. It was over by 8:45 p.m.

Chicago Water Poison Scheme 'Harebrained'

CHICAGO (AP) — An alleged plot to poison city water supplies was a "harebrained scheme" that could not have worked, says James J. Jardine, Chicago water and sewage commissioner.

Two men, both city college students, were charged Tuesday with conspiracy to commit murder by introducing typhoid germs into the Chicago's supply of drinking water.

Jardine said any attempt to poison the water supply was bound to fail. Chlorine added continuously to the one billion gallons of water pumped daily to Chicago would have destroyed the typhoid bacteria, he said. Security police also guard the two water filtration plants around the clock.

Held in Cook County jail today on \$250,000 bond each were Steve Pera, 18, a former hospital worker from Evanston, Ill., and Allan Schwander, 19, of Chicago.

Chicago police arrested the men at midnight Monday in

Schwander's North Side apartment.

State's Atty. Edward V. Hanrahan of Cook County said in a statement that a week-long investigation disclosed that the two men had formed an organization called "RISE," through which they allegedly planned to poison the area's water supply.

He said members of RISE allegedly were to be inoculated against the water poisoning "to form the basis of a new master race."

The two students appeared before Judge Robert J. Sulski in Circuit Court. Jack Schmetter, an assistant states attorney, told Sulski that in the apartment were substances tentatively identified as typhoid micro-organisms.

He charged the typhoid culture was apparently prepared by Pera in a laboratory at Mayfair City College, where a quantity of the deadly germ was found.

Vote-Cost Bill Ready For Passage

WASHINGTON (AP) — Congress is ready to send President Nixon a federal-election-spending-reform bill designed to seal reporting loopholes, curb campaign costs and reflect modern political realities.

It represents the most comprehensive change of campaign-practices law in a half-century. There is a lingering controversy over its restrictions involving media advertising rates and radio-TV spending limits.

As the House was getting set to finish congressional action today on the Senate-approved compromise, backers acknowledged it may lack perfection.

But, said reform-leading Reps. Morris K. Udall, D-Ariz., and John B. Anderson, R-Ill., "we recognize it is a vast improvement over the loophole-ridden Corrupt Practices Act of 1925 which it replaces."

"This new act places realistic and enforceable limits on campaign spending . . ."

"Secondly, this new act establishes full and timely disclosure requirements which provide to the American people the right to know who finances the campaigns of the candidates they must choose among."

Under the bill's formula, a presidential candidate's radio-TV ad budget would be restricted to \$8.4 million this fall. This would involve an all-media spending ceiling of 10 cents per potential voter, with no more than 6 cents of each dime going for broadcast ads.

Nixon Censure Sparks Applause

WASHINGTON (AP) — Rep. Bella Abzug's resolution to have President Nixon censured for failing to end U.S. involvement in Vietnam brought the new session of Congress its first demonstration.

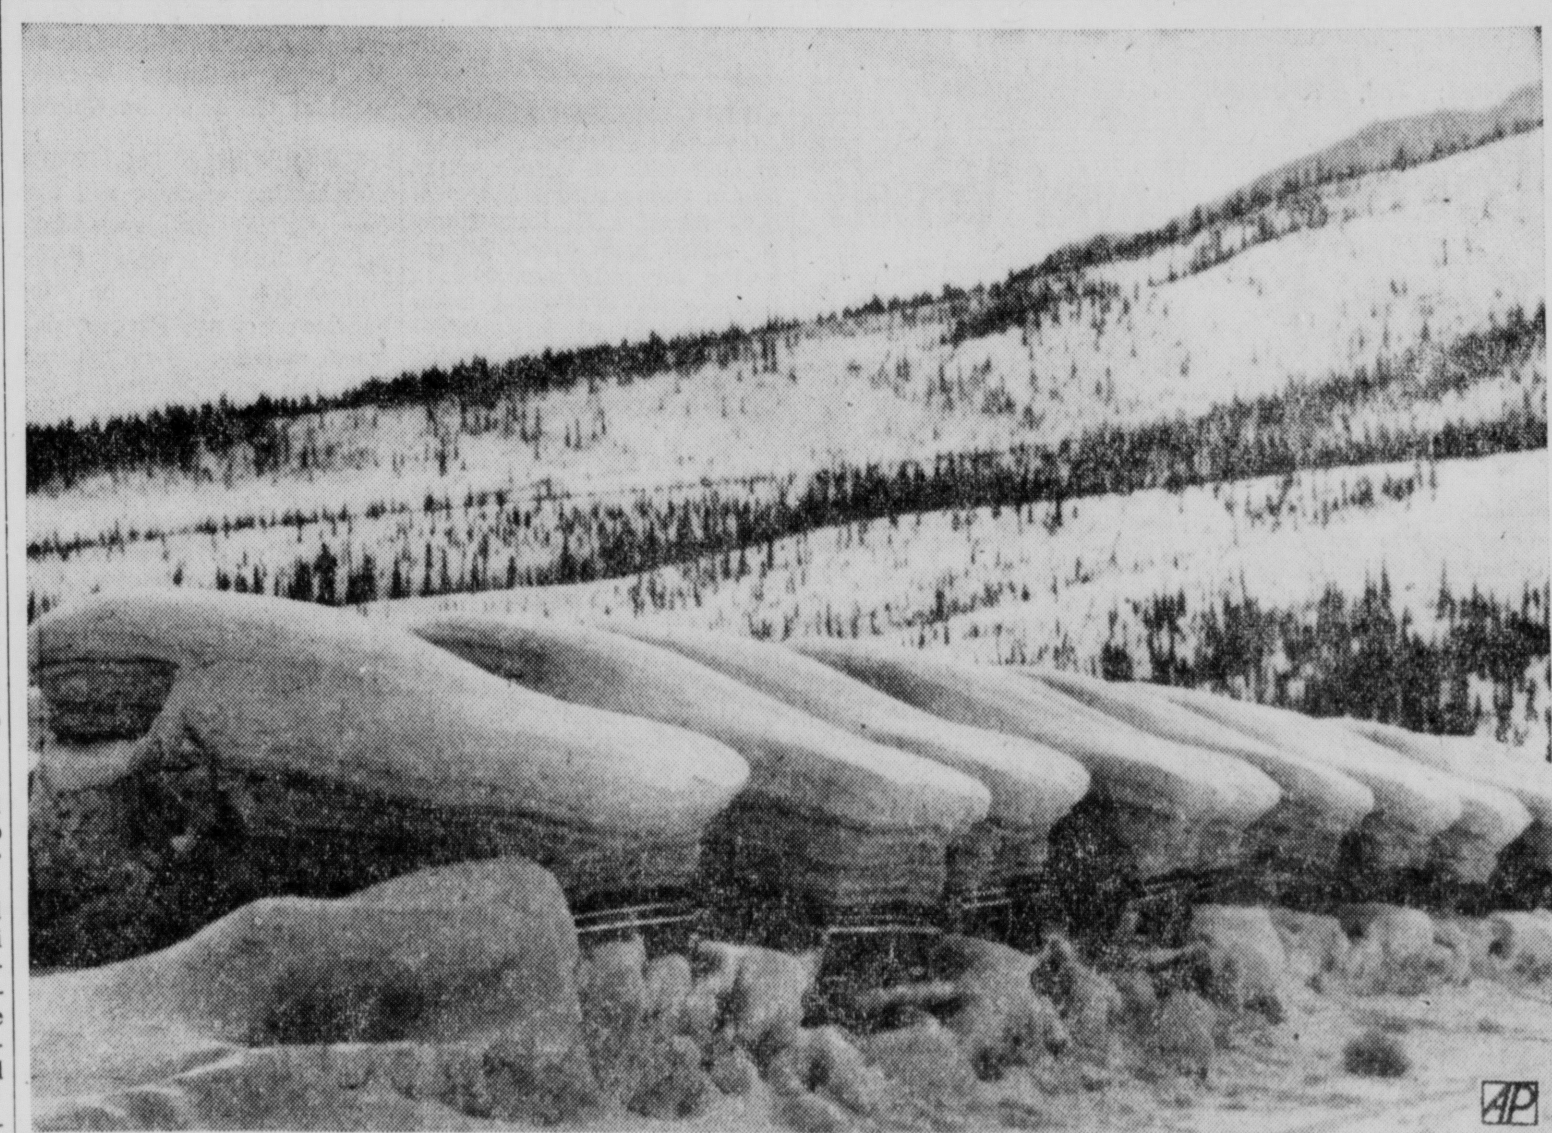

About 200 women supporters of the New York Democrat's proposal lightly applauded her speech and followed that with the raising of banners in the House gallery Tuesday.

House Speaker Carl Albert, D-Okl., warned that no demonstrations would be tolerated, and when the banners were hoisted, he ordered the gallery cleared.

Coast Guard, Red Ships At Impasse In Bering Sea

COLD STORAGE—A snowy brigade of trucks stand in frosty storage on Alaska's North Slope, part of a

mammoth stockpile of equipment and supplies stored in preparation for the trans Alaska pipeline. The start of

the project is being held up by the U.S. government pending studies leading to a final decision which involves

the ecological effects of building such a line across the tundra and perma-frost.

Soviet Vessels Refuse Move Into Harbor

JUNEAU, Alaska (AP) — Two Soviet fishing vessels seized on charges of violating U.S. territorial waters are refusing to be taken to port and remain stalemated in the northern Bering Sea with a Coast Guard icebreaker.

The Lamut, a factory ship that abandoned an escape attempt as the Coast Guard was ready to shoot across its bow Tuesday, and the sterntrawler Kolyan have balked at going beyond St. Matthew Island, some 200 miles off the western coast of Alaska.

Armed boarding parties from the icebreaker Storiz are aboard the Russian vessels and both the skipper of one vessel and the fisheries director of the Soviet fleet are being held under arrest aboard the Storiz, Coast Guard officials said at Juneau.

A Coast Guard spokesman said the Storiz had been unable "to convey the subtleties of its conversations with the Russians."

The Coast Guard said it knew of no reason for the refusal of the Soviet ships to sail under escort to the U.S. Naval Station at Adak in the Aleutians, 600 miles to the south.

The Storiz, an armed 230-foot craft with 77 crew members, is being aided by shifts of land-based patrol planes that continue surveillance over the scene, the Coast Guard said, and a buoy tender was expected to join the Storiz by midday today.

The 362-foot Lamut, flagship of an 80-vessel Russian fishing fleet near the area, and the 278-foot Kolyan were seized Monday night about 9 1/2 miles off the coast of uninhabited St. Matthew Island, the Coast Guard said, and were charged with violating the U.S. 12-mile contiguous fishing zone.

Phantom Downs MIG In Air Duel

SAIGON (AP) — A U.S. Navy F4 Phantom jet shot down a swift enemy MIG21 inside North Vietnam today in a blazing air duel.

During the engagement, at least three American planes were fired on by eight surface-to-air missiles and antiaircraft guns, the U.S. Command reported.

One of the planes suffered minor damage but all U.S. aircraft returned safely to their carriers in the Gulf of Tonkin, the command said.

A command spokesman, Maj. Robert O'Brien, reported the action was triggered when eight Soviet-built SAM missiles plus antiaircraft artillery were fired at an unarmed Navy RA5 reconnaissance jet and its fighter escort near Quan Lang airfield.

This is about 170 miles north of the demilitarized zone separating North and South Vietnam.

Woman To Seek Brown's Seat

URBANA, Ohio (AP) — A Champaign County woman has announced as an independent candidate for Ohio's 7th Congressional District seat now held by Republican Clarence Brown.

Free Lance writer Dorothy Franke, 54, of St. Paris, is circulating petitions necessary to qualify for a spot on the ballot.

Among the issues advocated by Mrs. Franke are an immediate end to the Vietnam War; direct election of the president; elimination of the government seniority system; and an end to military aid to other nations.

"I'm really a Republican," quipped Mrs. Franke, "but based on my platform you can see why I'm running as an independent."

nam, and 155 miles south of Hanoi.

Two fighters returned the fire, and one of them, an A7 sustained minor damage O'Brien said.

Four minutes later, a Navy F4 phantom engaged and shot down a MIG21 with air missiles.

It was the first MIG shot down in 20 months. The MIGs have been showing up more frequently during the intense U.S. air campaign against

North Vietnam's Ho Chi Minh supply trail in Laos.

Only Monday MIGs fired missiles at two Phantoms 270 miles north of the demilitarized zone, then fled when the missiles missed.

There was no immediate indication whether any of the planes involved were from the world's largest warship, the nuclear-powered carrier Enterprise, which only today returned to the Gulf of Tonkin. Its 75 planes joined in the campaign against the Ho Chi Minh trail.

President Nixon ordered the 86,000-ton carrier into the Indian Ocean last month for a show of strength in support of Pakistan during the India-Pakistan war. She sailed with a task force from the Tonkin Gulf Dec. 9, started back to Vietnam on Jan. 10 and en route stopped in the Philippines to give her crew shore leave.

The Enterprise joined the 75,000-ton carrier Constellation on Yankee Station off the Viet-

Dollar Devaluation, Trade Deals Set By Government

WASHINGTON (AP) — The Nixon administration hopes to tie the knot on major new trade deals and send its dollar-devaluation bill to Congress by early February, a high Treasury official says.

The trade package and the dollar-devaluation measure go hand in hand, Paul Volcker, undersecretary for monetary affairs, told newsmen Tuesday. He said he sees no difficulties in trade negotiations.

"The trade package is going to be wrapped up, I feel quite sure," he said. "I think we can make it by that date (early February). I think it's in everybody's interest."

Volcker, an architect of President Nixon's international economic policy, held a rare on-the-record news conference, the first since he was instrumental in the international monetary settlement reached last Dec. 18.

He declined to be specific on negotiations with the nation's major trading partners. As part of the deal to devalue the dollar, the United States has insisted that Japan, Canada and

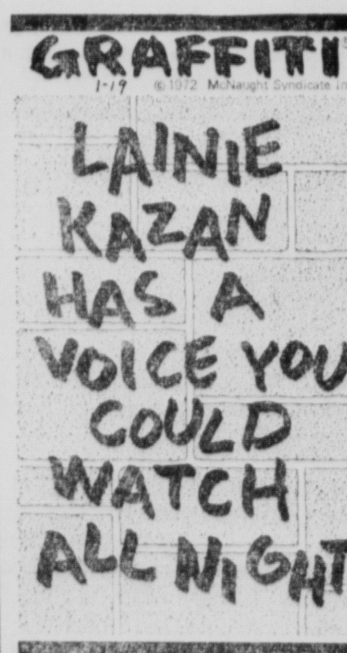

the Common Market countries agree to some trading concessions.

Volcker said he sees no trouble with the dollar-devaluation bill, predicting that Congress "will deal with this legislation expeditiously." Technically, the dollar would be devalued by raising the price of gold from \$35 to \$38 an ounce. In foreign exchange markets, that amounts to a devaluation of 7.89 per cent.

On other topics, the undersecretary said:

"The Nixon administration will roll up a 'very substantial deficit' in fiscal 1972, and the 1973 budget due to go to Congress next Monday will be deeply in the red. But Volcker said both deficits are justified under current slack economic conditions. Other sources said the budget deficit for fiscal 1972 may reach almost \$40 billion, the biggest in 27 years.

—He does not expect the monetary agreement, in which a new system of currency exchange rates was immediately put into effect, will become un-

Priest Donates Prize To Needy

MONTREAL (AP) — A Roman Catholic priest is giving away the \$125,000 first prize he won in the Quebec lottery this month. He says none of the money will be spent on himself. "I've witnessed so much poverty," he said Tuesday in an interview, "that my first reaction was to think of whom I could really help out. Besides, you know, it gives me great happiness to help."

The priest, who wished to remain anonymous, has sent out 24 checks to members of his family, friends and acquaintances who helped him when he entered study for the priesthood nearly 20 years ago. He has also made donations to several needy causes.

My Lai Toll Was 347, Man Claims

NEW YORK (AP) — Reporter Seymour Hersh says a secret Army document puts at 347 the number of Vietnamese civilians killed in the 1968 My Lai massacre. Most estimates had been under 200.

Hersh also says that the document shows that as many as 100 other women, children and old men were slain in a nearby hamlet the same day.

In the first installment of a two-part article written for the New Yorker magazine, Hersh accused the Army of covering up factual material about the atrocities.

Hersh said the civilian death figures are contained in the transcript of the Army's My Lai inquiry conducted by a commission headed by Lt. Gen. William R. Peers.

The Peers commission transcript has not been made public and an Army spokesman in Washington said Tuesday that there would be no comment on any aspect of the case while legal appeals are pending.

The transcript shows that the Army's Criminal Investigations Division concluded after a probe ordered by the commission that 347 civilians died at My Lai, according to Hersh.

Report Earthquakes In South Pacific

PORT MORESBY, New Guinea (AP) — Two earthquakes of medium strength shook the northwest part of Australian New Guinea Tuesday night and this morning but no report of casualties was received here, authorities said.

The geophysical laboratory reported both quakes registered 6.5 on the Richter scale. A spokesman said their epicenter was in an uninhabited area about 80 miles west of the coastal town of Madang.

Skylab Crew Selections Draw Criticism

SPACE CENTER, Houston (AP) — Some members of the space agency science team are dismayed that scientist-astronauts were limited to three of the nine crew berths for Skylab, an orbiting laboratory designed to study the earth with special sensors and the sun with telescopes.

The first three-man crew is scheduled to spend 28 days aboard the Skylab mission starting next May, and the second two crews are to be aboard 56 days each.

Two pilot-astronauts with little academic background and a physician-astronaut make up

the first crew. Each of the remaining two has an astronaut with a doctorate in engineering and two pilot-astronauts.

"If this is a selection which doesn't try to get people of true scientific training on the mission, then we're in trouble," said one scientist who had contributed heavily to the Apollo moon-landing program.

The scientist, like five others who commented unfavorably about the selection, declined to give his name for print because of a close association with the space program.

A flight surgeon said more physicians should have been

chosen. Much of the Skylab program is designed to learn about the effects of long-term space travel on the human body, he said, and subtle changes not obvious to the layman could be overlooked by an astronaut without medical training.

He also said a relatively minor illness that could be cured by a doctor on board might lead to a premature end for a mission.

An astronaut who defended the selections said they were "extremely difficult" because the piloting skill of the crewmen must balance with their

potential science contribution.

"If you have a slipup in getting up and getting down in and out of space," he said, "then you've blown all your science."

But another astronaut said some scientist-astronauts are "as skillful at piloting as any of the best test pilots and in some cases they are the ones not going."

Charles "Pete" Conrad, a 41-year-old veteran of three space flights, was named to command the first Skylab mission. As commander of Apollo 12, he was the third man to walk the moon. His crewmates are Dr. Joseph Kerwin, 39, a physician,

and Paul J. Weitz, 39, a former jet pilot and aeronautical engineer.

Alan L. Bean, 39, who walked the moon with Conrad, will command the second mission. With him will be Dr. Owen K. Garriott, 41, who holds a doctorate in electrical engineering, and Jack R. Lousma, 35, a former jet pilot.

The third crew will be commanded by Gerald P. Carr, 39, a former fighter pilot who has not flown into space. His crewmates will be Dr. Edward G. Gibson, 35, who holds a doctorate in engineering, and William R. Pogue, 42, a former jet pilot.

and Paul J. Weitz, 39, a former jet pilot and aeronautical engineer.

Alan L. Bean, 39, who walked the moon with Conrad, will command the second mission. With him will be Dr. Owen K. Garriott, 41, who holds a doctorate in electrical engineering, and Jack R. Lousma, 35, a former jet pilot.

The third crew will be commanded by Gerald P. Carr, 39, a former fighter pilot who has not flown into space. His crewmates will be Dr. Edward G. Gibson, 35, who holds a doctorate in engineering, and William R. Pogue, 42, a former jet pilot.

Priest Donates Prize To Needy

MONTREAL (AP) — A Roman Catholic priest is giving away the \$125,000 first prize he won in the Quebec lottery this month. He says none of the money will be spent on himself. "I've witnessed so much poverty," he said Tuesday in an interview, "that my first reaction was to think of whom I could really help out. Besides, you know, it gives me great happiness to help."

The priest, who wished to remain anonymous, has sent out 24 checks to members of his family, friends and acquaintances who helped him when he entered study for the priesthood nearly 20 years ago. He has also made donations to several needy causes.

Report Earthquakes In South Pacific

PORT MORESBY, New Guinea (AP) — Two earthquakes of medium strength shook the northwest part of Australian New Guinea Tuesday night and this morning but no report of casualties was received here, authorities said.

The geophysical laboratory reported both quakes registered 6.5 on the Richter scale. A spokesman said their epicenter was in an uninhabited area about 80 miles west of the coastal town of Madang.

JAYCEE OFFICERS — Officers and directors elected by the Circleville Jaycees for the year are from the left, Jerry Smith, director; Dan Moffitt, secretary; Larry Eveland, director; Jake Bailey, president; Lou McFarland, director; Bruce Bell, vice-president; Pete Cherrington, director; Jack Luce, treasurer.

Jaycee Officers, Directors Feted For Dedication

During National Jaycee Week, Jaycee officers and directors affiliated with the Circleville club have been honored for their dedication.

Officers are Jake Bailey, president; Bruce Bell, first vice president; Richard Wilder, second vice president; Jack Luce, treasurer and Dan Moffitt, secretary.

Directors are Jerry Smith, Lou McFarland, Pete Cherrington and Larry Eveland.

Bruce Bell has been a member of the chapter since 1969 and has served as treasurer, director and vice president. Honors bestowed upon him have been: 1969 Spoke Award for the local chapter and was second in district competition in 1970. He was awarded the outstanding Jaycee for the 1969-70 year.

During 1970-71 he was a Spark Plug and Speak Up winner. He also received second place in

the district Speak Up Competition held in Washington, D.C. He completed the Leadership in Action Course with 12 other local Jaycees.

He was awarded the Key Man Award for 1970-71. During the first quarter of 1971-72 Bruce has been awarded the Outstanding Officer of the Quarter by President Jake Bailey.

Bruce is employed as Executive Representative for Southern Ohio by Universal Guaranty Life Insurance. He has been in this capacity since Feb. 1971.

Richard Wilder has been employed by RCA since May, 1969, and with the RCA Circleville Glass Operations since July 27, 1970. His current position is Administrator of Employment and Safety.

Wilder joined the Jaycees in October 1970 and currently is the second vice president.

Dan Moffitt, who has been a member of the Circleville Jaycees for two years, currently holds the office of secretary.

Employed by BancoOhio Corp. as a systems analyst, he resides at 1068 Mulberry Road with his wife, Vicky, and his two children Eric, 4 and Danielle, 1 year.

John W. Luce graduated from Ohio State University in 1965 with a B.S. degree in Industrial Engineering. Since graduation, he has been employed by Owens-Illinois, Inc. with one year in their General Offices in Toledo, three years in Minneapolis, and was appointed Industrial Engineer of Owens-Illinois, Inc. in Circleville in 1969.

He joined the Circleville Jaycees in January of 1971 and was elected treasurer of the organization in April.

Luce and his wife, Judy, reside on Dunkle Road and are the parents of a son, 3 and a daughter, 9 months.

Fete Set For Brown

Richard L. Gerhardt has been appointed Pickaway County coordinator for a dinner-dance in honor of Ohio Attorney General William J. Brown. The event is scheduled March 11 at Sheraton Motor Hotel, Columbus.

Soviet Vessels

(Continued from Page 1)

Shortly after the seizure, the Lamut broke and ran, going through the ice-choked waters of the Bering Sea. It was maneuvered into the ice by the Storis only after the U.S. ship warned it was ready to open fire. The Storis had authorization from Washington to fire a warning shot across the bow and came "about as close as you can get," the Coast Guard said.

U.S. Atty. G. Kent Edwards said in Anchorage that if the U.S. District Court authorizes a warrant, a U.S. marshal will arrest the vessels at Adak. The vessels would face a maximum \$100,000 fine if convicted and their masters could receive a year in prison.

Forfeiture of the ships and gear could be a possibility under civil charges, Edwards said.

The Pacific Maritime Association has announced that its member shipping firms will refuse to handle military cargo at struck West Coast ports after this week.

Y Member Drive Sweepstakes On

The 1972 Y Membership Campaign will be in three phases, according to Mike Bruno, Campaign Chairman.

"The major thrust will be through the involvement of the YMCA's total membership in recruiting new members," he said. As an incentive to enroll new members, sweepstakes prizes will be given. According to the chairman, the list of sweepstakes prizes and instructions for enrolling new members were mailed last Saturday.

Prizes, he said, include two radios, steak dinners, a seven-piece set of wear-ever cookware, 10 gallon aquarium set, steam iron, ten pizzas, and a half-gallon of ice cream per week for ten weeks.

The second phase, will involve two structured membership teams under the leadership of Sam Sberna and Bob Ogden. A training session was held for the 25 team members Tuesday night at the Lutheran Church.

Military Cargo Shutdown Set At West Coast Ports

By THE ASSOCIATED PRESS

The Pacific Maritime Association has announced that its member shipping firms will refuse to handle military cargo at struck West Coast ports after this week.

The decision Tuesday would cut off an important source of income to striking dock workers and affect about 75 per cent of military shipments for Southeast Asia.

The decision may also hasten the congressional action that is expected as the government seeks to end the walkout, perhaps by imposing a legislated settlement.

The striking International Longshoremen's and Warehousemen's Union pays no strike benefits to its 13,000 members, and striking dockers picked up as much as two days work a week on strike-exempted military cargo in the 100 days before a Taft-Hartley

injunction sent them back to work Oct. 6.

The union renewed its walkout Monday after the injunction had expired and new talks failed to reach a settlement.

Union officials could not be reached for comment on the association's action.

The announcement of the decision by the executive committee of the 120-member association came as seven Western governors, whose states were hard hit by the previous walkout, sought new federal intervention.

Gov. Tom McCall of Oregon, acting as spokesman for governors of Alaska, Hawaii, Idaho, Washington, Montana and California, flew to Washington Tuesday and conferred with top White House officials.

The White House said Director George Shultz of the Office of Management and Budget and Undersecretary of Labor Lawrence S. Silberman assured

McCall that the administration was giving top priority consideration to ways of halting the walkout, including legislative action.

Senate Majority Leader Mike Mansfield, D-Mont., has pledged that priority will be given any legislation the President sends to Congress.

Capt. Robert Friedman, chief operations officer for the Military Sea Lift Command in Oakland, said the Navy is exploring alternate ways of moving cargo.

Before negotiations broke down Monday, agreement had been reached on a 16.8 per cent first-year wage increase of 72 cents to \$5 an hour.

Union leader Harry Bridges said negotiations reached an impasse on how dock workers would benefit from a \$1 a ton royalty that the shippers agreed to pay on cargo containers not worked by ILWU men.

Jets from the Enterprise and the Constellation and from U.S. Air Force bases in Thailand and South Vietnam kept up heavy raids against the Ho Chi Minh trail. Informed sources said they made some 250 strikes today against the enemy supply routes.

U.S. B52 bombers also made more heavy strikes for the third day along the border in South Vietnam's central highlands, where an estimated 15,000 North Vietnamese troops are reported massing, possibly for an offensive during the Tet celebration next month and during President Nixon's visit to China.

such as firebases. Or they may even thrust at the highland cities of Kontum and Pleiku.

Analysts expect the main military-political objective of such attacks will be to defeat the South Vietnamese troops, shake their confidence and demonstrate that President Nixon's Vietnamization program has not worked.

Also, it is said, the North Vietnamese might hope to embarrass Nixon ahead of or during his February trip to confer with Communist Chinese leaders in Peking.

Although they foresee some enemy rocket, mortar and commando-style attacks on U.S. bases and positions, Pentagon authorities discount the likelihood of any major infantry assaults on American troops.

Such major enemy assaults would invite U.S. retaliation with bombing strikes against North Vietnam, officials say.

Spanish Industrialist Kidnaped

BILBAO, Spain (AP) — Basque guerrillas kidnaped a Spanish industrialist today and threatened to kill him next Monday unless dismissed workers at his factory were reinstated, police reported.

Spanish news agencies and police blamed the kidnapping on four men from ETA, a Basque guerrilla organization that kidnaped a West German consul a year ago.

Radio Bilbao and the newspaper Hierro said they had notes signed by ETA saying it kidnaped Lorenzo Zabala Sainza, 44, owner of a motorcycle plant and director of a metal firm near Bilbao. ETA stands for Basque Country Free.

Witnesses told police the industrialist was grabbed as he stepped from his car to enter his Motobac factory at Abadiano, a village 15 miles from this industrial city.

Zabala, a father of several children, owned Motobac and is a director of Preci-Control, which fired 183 workers in December after a collective bargaining conflict in which the workers demanded higher wages.

Judge Threatened After Ordering Racial Merger

RICHMOND, Va. (AP) — U.S. District Court Judge Robert R. Merhige Jr. says his controversial order for an integrated merger of Richmond-area public schools has prompted so many telephone threats that his wife and young son never leave home without a federal marshal to protect them.

"It doesn't bother me when it's directed at me . . . I am too old now to be bothered," Merhige, 52, said in a nationally televised CBS interview Tuesday night.

"But I resent them upsetting my wife and child . . . My little boy, I think, suffers more than anybody. He doesn't go off the property without a marshal, nor does Mrs. Merhige."

"I want you to understand we are not afraid. I only hope they (the callers) would understand, whoever they are, that it's not going to change one single thing whether it's me or any other judge."

Indictments Against Three Men Changed By Grand Jury

January grand jurors brought new indictments against three young men Monday and nollied the charges which had been filed in the municipal court.

Their action, the first of its kind during the term of Prosecutor Roy Huffer, reduced the charges against Carlton Good, Paul Bost and James W. McGowan to a misdemeanor — malicious trespassing.

Huffer reported today that the charges originally filed against the trio, charges of grand larceny and breaking and entering, had been dismissed by the jury in their Monday meeting. They brought the new charge against the young men and indicted them under it.

Apparently information on the unusual alteration was not conveyed to the clerk's office until after the official record of the jury meeting was made.

A NEW form was filed with the corrected figures showing 29 cases considered by the jurors, with nine no bills filed and 20 indictments approved. The no bills included the six filed

Foreign Aid Vote Slated

WASHINGTON (AP) — The House today is expected to approve a \$2.7-billion foreign-aid extension bill that calls for other wealthy nations to share the burden of assisting needy countries.

But Rep. Thomas E. Morgan, chairman of the House Foreign Affairs Committee, says he does not want to act on President Nixon's comprehensive foreign-aid-overhaul plan until after the November election.

"We could have a new president then," the Pennsylvania Democrat said, "and he might want something different."

The joint aid proposal with other nations moves toward one basic change Nixon requested. House approval of the bill would nearly complete Congress' revival of foreign aid after weeks of House-Senate maneuvering and deadlock since the Senate struck down the program last Oct. 29. The Senate has yet to pass a \$2.6-billion appropriation of the authorized money.

The Fairfield County Fair at Lancaster will have the latest fair dates, opening Oct. 11 and running through Oct. 14.

The state fair in Columbus will open Aug. 24 and extend through Sept. 4.

Huffer noted that such action was entirely lawful, that it is the responsibility of the grand jury to bring whatever charges it believes proper, regardless of what the law enforcement agencies and the prosecutor had determined previously. Their decision is based on evidence presented in the closed hearings.

Although the new charge is a misdemeanor, it will be handled in the Common Pleas Court, Huffer explained. Once a case is sent to a higher court it keeps jurisdiction even if the charge should be reduced.

The second phase, will involve two structured membership teams under the leadership of Sam Sberna and Bob Ogden. A training session was held for the 25 team members Tuesday night at the Lutheran Church.

THIS group of YMCA membership workers will also be eligible for sweepstakes prizes. This group's major responsibility will be the enrollment of new Partner-with-Youth members. Over 100 boys and girls were sponsored last year through the Partner with Youth Program.

The third phase, will involve the recognition of YMCA's Century Club members, and enrollment of possible new Century Club Members. The responsibility for this task has been assigned to the YMCA Board.

This year's membership enrollment, Bruno said, will be primarily interested in the recruitment of new members, and will conclude at the Annual Meeting on Feb. 9. At that time the sweepstakes prizes will be awarded.

Analysts expect the main military-political objective of such attacks will be to defeat the South Vietnamese troops, shake their confidence and demonstrate that President Nixon's Vietnamization program has not worked.

Also, it is said, the North Vietnamese might hope to embarrass Nixon ahead of or during his February trip to confer with Communist Chinese leaders in Peking.

Although they foresee some enemy rocket, mortar and commando-style attacks on U.S. bases and positions, Pentagon authorities discount the likelihood of any major infantry assaults on American troops.

Such major enemy assaults would invite U.S. retaliation with bombing strikes against North Vietnam, officials say.

Roundtown

(Continued from Page 1)

TUESDAY made it 52 and official . . . Former Circleville Highway Patrol Post commander James Pribble officially started his retirement yesterday, which was also his 52nd birthday . . . In honor of his retirement after 22 years service with the Patrol, local patrolmen feted the "Old Man" and his wife to a dinner and dance last night at the American Legion Post, reported to be a swinging affair which lasted six hours ('til midnight) . . . Some 80 people were on hand, including the entire local post and their wives, plus other patrol associates of Pribble . . . Gifts of a Highway Patrol ring, an attaché case for his important business papers and his lunch (He works as a public relations man for the OADA now) and golf shoes were presented him by his friends.

SOME days you're not safe anywhere . . . Pickaway County Auxiliary Deputy Tom Tatman was driving south on I-71 near Frank Road in Columbus about 6:40 p.m. Tuesday, when another auto pulled up behind him and started bumping his car from the rear . . .

Tatman pursued the car, which took the westbound exit on Route 665 in Franklin County and finally ran it into a cornfield following the high speed chase . . . Driver of the car was Charles Wheeler, 32, Columbus, who was charged with reckless operation, hit skip, failure to maintain assured clear distance ahead and failure to drive on the right side of a roadway . . .

No reason was given as to why he pounded Tatman's auto.

Spanish Industrialist Kidnaped

BILBAO, Spain (AP) — Basque guerrillas kidnaped a Spanish industrialist today and threatened to kill him next Monday unless dismissed workers at his factory were reinstated, police reported.

Spanish news agencies and police blamed the kidnapping on four men from ETA, a Basque guerrilla organization that kidnaped a West German consul a year ago.

Radio Bilbao and the newspaper Hierro said they had notes signed by ETA saying it kidnaped Lorenzo Zabala Sui-naga, 44, owner of a motorcycle plant and director of a metal firm near Bilbao. ETA stands for Basque Country Free.

Witnesses told police the industrialist was grabbed as he stepped from his car to enter his Motobac factory at Abadiano, a village 15 miles from this industrial city. Zabala, a father of several children, owned Motobac and is a director of Preci-Control, which fired 183 workers in December after a collective bargaining conflict in which the workers demanded higher wages.

Judge Threatened After Ordering Racial Merger
RICHMOND, Va. (AP) — U.S. District Court Judge Robert R. Merhige Jr. says his controversial order for an integrated merger of Richmond-area public schools has prompted so many telephone threats that his wife and young son never leave home without a federal marshal to protect them.

"It doesn't bother me when it's directed at me . . . I am too old now to be bothered," Merhige, 52, said in a nationally televised CBS interview Tuesday night.

"But I resent them upsetting my wife and child . . . My little boy, I think, suffers more than anybody. He doesn't go off the property without a marshal, nor does Mrs. Merhige."

"I want you to understand we are not afraid. I only hope they (the callers) would understand, whoever they are, that it's not going to change one single thing whether it's me or any other judge."

\$6.8 Million Collected By State Office

COLUMBUS, Ohio (AP) — A record \$6.8 million in unpaid debts owed the state were collected last year by the claims section of the office of Ohio Atty. Gen. William Brown. Brown said the total was about \$1 million more than had been collected in any previous year.

KING'S PLAYERS

A dramatics company from Asbury College, Wilmore, Ky., will present "A Mighty Fortress" at the Campus Church of Christ in Christian Union 7:30 p.m., Jan. 30. It is the story of Marcus and Narciss Whitman, first

missionaries to the Cayuse Indians in the Oregon Territory in 1836. Included in the cast is Miss Twana Moats, daughter of Mr. and Mrs. Raymond Moats, Route 4. Directors are Dr. Mark B. Lloyd and Prof. Helen R. Lloyd, members of the speech faculty.

Indictments Against Three Men Changed By Grand Jury

January grand jurors brought new indictments against three young men Monday and nolle the charges which had been filed in the municipal court.

Their action, the first of its kind during the term of Prosecutor Roy Huffer, reduced the charges against Carlton Good, Paul Bost and James W. McGowan to a misdemeanor — malicious trespassing.

Huffer reported today that the charges originally filed against the trio, charges of grand larceny and breaking and entering, had been dismissed by the jury in their Monday meeting. They brought the new charge against the young men and indicted them under it.

Apparently information on the unusual alteration was not conveyed to the clerk's office until after the official record of the jury meeting was made.

A NEW form was filed with the corrected figures showing 29 cases considered by the jurors, with nine no bills filed and 20 indictments approved. The no bills included the six filed

against the two boys and three others which had been dropped for lack of evidence.

Huffer noted that such action was entirely lawful, that it is the responsibility of the grand jury to bring whatever charges it believes proper, regardless of what the law enforcement agencies and the prosecutor had determined previously. Their decision is based on evidence presented in the closed hearings.

Although the new charge is a misdemeanor, it will be handled in the Common Pleas Court, Huffer explained. Once a case is sent to a higher court it keeps jurisdiction even if the charge should be reduced.

Mainly About People

The Rev. George L. Troutman, former pastor of Trinity Lutheran Church, Circleville, is in Room 144, Apollo Medical Center, 400 30th Ave., South, St. Petersburg, Fla., 33705.

William I. Schooley is a patient in Riverside Methodist Hospital, Columbus. He is in Room 615.

Hit-Skip Mishap Investigated

Pickaway County Sheriff's Deputies are investigating the destruction of 60 feet of wire fence and three metal fence posts owned by Harry Wright, Route 1.

The damage was apparently committed by a car, driving off the right berm of Campbell Rd., 3:30 p.m. Tuesday.

According to the report, neither the driver nor the car has been located.

Hubcap Stolen

Iris Imier, 122 Edison Ave., notified city police that a hubcap had been stolen from her car Tuesday while it was parked in her driveway.

JAYCEE OFFICERS — Officers and directors elected by the Circleville Jaycees for the year are from the left, Jerry

Smith, director; Dan Moffitt, secretary; Larry Eveland, director; Jake Bailey, president; Lou McFarland,

director; Bruce Bell, vice-president; Pete Cherrington, director; Jack Luce, treasurer.

Jaycee Officers, Directors Feted For Dedication

During National Jaycee Week, Jaycee officers and directors affiliated with the Circleville club have been honored for their dedication.

Officers are Jake Bailey, president; Bruce Bell, first vice president; Richard Wilder, second vice president; Jack Luce, treasurer and Dan Moffitt, secretary.

Directors are Jerry Smith, Lou McFarland, Pete Cherrington and Larry Eveland.

Bruce Bell has been a member of the chapter since 1969 and has served as treasurer, director and vice president. Honors bestowed upon him have been: 1969 Spoke Award for the local chapter and was second in district competition in 1970. He was awarded the outstanding Jaycee for the 1969-70 year.

During 1970-71 he was a Spark Plug and Speak Up winner. He also received second place in

the district Speak Up Competition held in Washington, D.C. He completed the Leadership in Action Course with 12 other local Jaycees.

He was awarded the Key Man Award for 1970-71. During the first quarter of 1971-72 Bruce has been awarded the Outstanding Officer of the Quarter by President Jake Bailey.

Bruce is employed as Executive Representative for Southern Ohio by Universal Guaranty Life Insurance. He has been in this capacity since Feb. 1971.

Richard Wilder has been employed by RCA since May, 1969, and with the RCA Circleville Glass Operations since July 27, 1970. His current position is Administrator of Employment and Safety.

Wilder joined the Jaycees in October 1970 and currently is the second vice president.

Dan Moffitt, who has been a member of the Circleville Jaycees for two years, currently holds the office of secretary. Employed by BancOhio Corp. as a systems analyst, he resides at 1068 Mulberry Road with his wife, Vicki and his two children, Eric, 4 and Danielle, 1 year.

John W. Luce graduated from Ohio State University in 1965 with a B.S. degree in Industrial Engineering. Since graduation, he has been employed by Owens-Illinois, Inc. with one year in their General Offices in Toledo, three years in Minneapolis, and was appointed Industrial Engineer of Owens-Illinois, Inc. in Circleville in 1969.

He joined the Circleville Jaycees in January of 1971 and was elected treasurer of the organization in April. Luce and his wife, Judy, reside on Dunkle Road and are the parents of a son, 3 and a daughter, 9 months.

MISS MATTHIAS

The Good Life

The movement of the skilled labor market around the world in the last decade or so has been an interesting phenomenon. Interesting because it reflects not only economies but something about the work values of the people involved.

Switzerland has enjoyed one of the more consistent periods of prosperity since World War II of any nation. A small country of limited population, Switzerland has had to rely upon tens of thousands of workers from all over Western Europe to fill out its labor force.

West Germany is another nation which has kept its labor force productively employed for many years and has had to import additional skilled labor. Some 17,000 of them were Britons in search of better jobs and higher pay.

Both were available in West Germany, but at a price. The German tradition of hard work and quality skills has not diminished. It has not been easy for some Britons to adjust, after years of being weaned on a system which featured higher pay for less work.

The trouble is, of course, that the British system eventually was caught up in its own excesses. Unemployment is high, trade is off and the economy is depressed. Which explains why thousands of Britons are seeking their livelihood elsewhere.

The good life is still available. But the price is hard and conscientious work. It only seemed for a while as if greater rewards were available for less effort. That is not a formula which holds under the test of time.

Better Wed

Young lady, have you despaired of trapping the young man of your choice into marriage? Does your cooking not measure up? Aren't you as alluring as Kim Novak? Well, you might try using statistics.

Studies prove that married men live longer and healthier lives than bachelors. For example, the former are sick less often and stay in hospitals for shorter periods when they are ill. And bachelors have a much higher

mortality rate than married men.

For every 1,000 single men between the ages of 25 and 34, there are 3.6 deaths in a year, while the rate for married men in that age group is 1.7 deaths. This may just prove that husbands face up to the challenge of outlasting their wives to keep their hands off the insurance money, though.

This leap year ammunition has been compiled for you girls. It's designed to help but the rest of the campaign is up to you.

Target: Heart Disease

This could be another year in which medical science gains a stronger foothold against the nation's number one killer — heart disease. Probably never before has the public been so aware of heart disease nor has there been such a concentrated drive by the medical profession against this ailment.

A factor which may make this a year of great progress is the renewed vigor with which the medical profession is

attacking the problem. There are several reasons for this vigorous concentration on heart disease.

Heart specialists continue to reap the benefits of many years of painstaking research and experimentation. Some drugs and surgical techniques have been successfully developed and others are undergoing final tests.

There have been many steps toward the ultimate goal, but before 1972 is ended there will be more.

The Business World

By JOHN CUNIFF

NEW YORK (AP) — For many months consumers complained about high interest rates, as they should have. Some rates would have taken off like rockets if they hadn't been tied to the launch pad by usury laws.

Now the rates are falling, but the complaints aren't. They may in fact grow louder during the next few weeks.

The situation arises not solely because of the economy's peculiar vertical motions but the equally peculiar manner in which consumers assume different roles.

When rates were high they were borrowers, and so they complained about the high cost of getting a loan. Now they are savers—the rate remains near 8 per cent of takehome pay—and the rates being earned on savings accounts are falling.

The downward trend was bound to come, a logical accompaniment of the "easing" of the money supply by the Federal Reserve. With money more plentiful in the economy, your savings aren't needed quite as much.

It is entirely likely, therefore, that during the next few weeks the rates paid on savings accounts will drop one-quarter or one-half per cent, and that those time deposit certificates paying up to 6 per cent will be less common.

Some banks, notably First National City, of New York, and Crocker National, of San Francisco, already have low-

ered rates. Others are bound to follow.

One effect of the lower savings account rates is to leave Series E and H Savings Bonds relatively more attractive. Both earn 5.5 per cent when held to maturity.

Investors sometimes overlook the fact that in order to receive that 5.5 per cent, however, they must hold their bonds at least 5 years and 10 months or longer.

If redeemed before that the rate will be lower—only a bit more than 3 per cent if cashed during the first year and less than 5 per cent if redeemed at any time before maturity.

This means that a bond bought for \$18.75 will be worth only \$20.40 after two years and \$23.82 after five, but will return to its owner \$25.73 if held to maturity.

The relatively high rate is not going unobserved by small investors. The cash value of savings bonds outstanding at the end of 1971 was at a record

high of \$54.3 billion, a gain of \$2.4 billion in one year.

Another possible effect of less attractive savings account rates may be a return to the stock market by small investors, many of whom were routed in the collapse but who might be gaining back some of their confidence by now. That at least is the hope of some brokers.

Tempering that possibility is the attitude of both brokers and investors. It wasn't only falling prices that drove away many small investors but the cold, even rude, attitude of some brokers as well.

THURSDAY'S HOROSCOPE

GENERAL TENDENCIES: Now you have a day and evening when any chances you take could easily put you behind the eight-ball. However, if you stick to proven methods and concentrate on enhancing the value of your property and act with diplomacy, you can turn otherwise difficult aspects to your benefit.

ARIES (Mar. 21 to Apr. 19) An older, serious-minded person can advise you on plans for the future. A prominent person can also give you the backing you need. You need stabilizing influences in your Arien life.

TAURUS (Apr. 20 to May 20) Strange happenings occur because of the position of the planets so keep your feet on the ground and impress others with your poise. Listen to good ideas friends have to offer.

GEMINI (May 21 to June 21) If you follow all rules and regulations that apply to you without fussing, you get along much better. Make new friends. Show that you have an excellent sense of humor.

MOON CHILDREN (June 22 to July 21) Study those conditions around you and do what you can to improve them. Don't go off in a foolish tangent with one who wants to lead you in wrong direction. Take it easy tonight.

LEO (July 22 to Aug. 21) Although you want to run away from obligations facing you, it is better to get them behind you, or you lose out monetarily. Use tact in handling a problematical affair. Be wise.

VIRGO (Aug. 22 to Sept. 22) If you ask direct questions of an associate, you know better how to proceed in the days ahead. An outside matter needs your most careful attention. Show that you have ability.

LIBRA (Sept. 23 to Oct. 22) Getting into duties you have promised to perform and handling them efficiently delights others now. Use that fine ability for accuracy. The evening should be devoted to recreation.

SCORPIO (Oct. 23 to Nov. 21) Know just how to delight those who mean much to you and have more harmony with everyone. A plan you want to put in operation requires more study. Make the evening a happy one. Be kind.

SAGITTARIUS (Nov. 22 to Dec. 21) Handle all those affairs that puts your life on a more secure basis. You may not like certain tasks, but they need doing just the same. Show that you have a sterling character.

CAPRICORN (Dec. 22 to Jan. 20) You have to schedule your time and activities wisely if you are to get all the duties and appointments attended to today. Fretting about things does not help at all. Be calm.

AQUARIUS (Jan. 21 to Feb. 19) You have to engage in outside activities if you are to add to present abundance. Use that gregarious Aquarius nature in right directions. This could be a most interesting day for you.

PISCES (Feb. 20 to Mar. 20) You have to do something to improve your appearance if you want to make your activities work out more satisfactorily. Avoid higher-ups who are critical. Be poised.

IF YOUR CHILD IS BORN TODAY . . . he or she will be one of those impulsive young people so it behooves you as parents to teach early to stop, look and listen before going into anything. Also to complete whatever has been undertaken. Teach to be more thorough and painstaking. Don't permit to go off on tangents, but to accept the standard and follow through on it. Is it safe to use paraffin for the relief of arthritis? I remember that my mother used it for a long time.

Mrs. A. B., Minn. Dear Mrs. B.: Paraffin is obtained from petroleum, and exists in a hard, soft and liquid form.

Before the discovery of cortisone and ACTH, paraffin was one of the few available methods that brought relief for some forms of arthritis.

The way it is used is rather simple. Ordinary paraffin, the kind used to preserve jams, is melted down and then allowed to cool to about 150 degrees F.

Care must be used because paraffin, by its appearance, can be deceptive, and the heat may cause very painful burns. The outer layer of the paraffin may seem cool, while underneath it may be burning hot.

The painful foot or hand is covered with a thin layer of mineral oil, and then dipped into the warm paraffin. When the hand or foot is exposed to the air, the paraffin becomes firm and covers the painful joints. This can be repeated several times so that the thickness of the paraffin increases.

Paraffin brings relief by retaining the heat for a long time. The heat is apparently more penetrating than that of an electric pad.

I want to emphasize that paraffin should be used with care, and with a doctor's advice.

This old-fashioned method is certainly not a substitute for the great advantage of the newer drugs and hormones.

After a child has had fever with a cold, how soon is it safe to send him back to school?

Mrs. T. K., Wash. Dear Mrs. K.: The persistence of fever is probably the simplest and best criterion in such cases.

Generally, most physicians think that if a child's temperature has been normal for two or three days, it is perfectly safe to send him back to school.

There is, of course, no firm rule about this. The severity of the illness and the weakness associated with it may make it wise for the child to stay home for a few extra days in order to recoup his energy.

I simply can't believe that the loud rock music my son listens to won't harm his hearing. What do you think?

Mr. B. N., Calif. Dear Mr. N.: The ear has a marvelous dampening mechanism to protect it against the bombardment of such loud sounds.

The effect on your emotions is probably greater than the effect on your young son's hearing.

Aid To Parochial Schools

By JOHN CHAMBERLAIN

The action of the three-judge Federal Court that voided state aid to parochial schools in New York State puts President Richard Nixon right on the spot.

It was just about six months ago that Cardinal Cooke of the Archdiocese of New York, speaking to the Supreme Convention of the Knights of Columbus, bemoaned what was happening to the church-related schools of America in our age of superinflation. Citizens who wished to exercise their freedom of choice in education by sending their children to Catholic, Jewish or even private secular schools were being put in almost unbearable financial, double jeopardy. First, they had to fork up their tax money to support the public school system, then, on top of this, they had to pay private school fees. The inequities, the discriminations, of the system were, or at least should have been, obvious.

Sparkling to the Cardinal's challenge for clarity, Richard Nixon remarked that, "as Cardinal Cooke has pointed out, at a time we see those private and parochial schools which lay such stress on these religious values, as we see them closing at the rate of one a day, we must resolve to stop that trend and turn it around. You can count on my support to do that."

But what is there to do? The three-judge court that has just enjoined the State of New York from paying out \$33 million to "non-public" schools for "secular education services" based its judicial ukase on a prior Supreme Court decision as well as on lower court action in voiding similar aid in Pennsylvania and Connecticut. Direct payments to private schools even for such religiously neutral services as the teaching of chemistry or Latin seemed to be permanently out.

If Richard Nixon can do nothing to redeem his promise to Cardinal Cooke, it could cost the taxpayers of America a billion dollars a year. Protestants no less than Catholics should resent this. For if the 4,500,000 American youngsters whose parents have chosen annually to send to parochial schools are to be dumped on the public school system, it will lead to a deterioration of education all over the country. The irony is that the parochial schools do not discriminate against anybody on the basis of color or ethnic origins or even, for that matter, religion. (Parochial schools stand ready to take Protestant children if parents are willing.)

It seems to me, though I am admittedly a layman insofar as reading the law is concerned,

TODAY In History

By THE ASSOCIATED PRESS Today is Wednesday, Jan. 19, the 19th day of 1972. There are 347 days left in the year.

Today's highlight in history: On this date in 1942, Japan invaded Burma during World War II.

In 1736, the inventor of the steam engine, James Watt, was born in Breckenock, Scotland.

In 1938, Gen. Francisco Franco's nationalist air force bombed the Spanish cities of Barcelona and Valencia, killing 700 persons.

In 1965, a cheating scandal came to light at the U.S. Air Force Academy at Colorado Springs, Colo.

Ten years ago: Secretary of Defense Robert S. McNamara said the United States was resolved to oppose Communist aggression in all its forms.

One year ago: New York City policemen ended a six-day strike.

that parents who want to send their children to church-related schools of their own choice still have a legal recourse. The First Amendment to the Constitution, which enjoins the separation of Church and State, also specifies that nobody shall be prevented from exercising his right to freedom of religion. Forcing a parent to take his child out of a parochial school because he can't afford to support two separate school systems is, if language means anything, an obvious infringement of the right to religious protection under the First Amendment itself.

Without giving a penny directly to any school, a state legislature or even a town council might choose to give educational vouchers to parents that would be cashable in any school, whether public or private. Or there could be tax remission to parents for school preferences. Justice Burger's Supreme Court has not yet pronounced on "parent aid" as distinct from parochial school

aid. A voucher system would treat the educational tax dollar of the individual citizen in an equitable manner. And the citizen, using what, after all, is his own money in the school of his choice, would be able to defend his right to freedom of religion as guaranteed by the First Amendment.

Governor Nelson Rockefeller of New York is leery of a voucher system for purely political reasons: if vouchers were to be voted universally, he might have to reckon with snide remarks about a "Rockefeller school plan for Alabama." But if "parent aid" were used in the South to build up discriminatory private schools, it wouldn't be long before the courts would step in to force anti-discriminatory standards on any school that tried to cash a voucher.

The ball is now in Nixon's court. If he is to live up to his summer's promise, he must come out for educational vouchers or some related form of "parent aid."

George Porter, S. Court St., told his story of the marvels of greasepaint and that old soft shoe that were vaudeville. Porter, then 54, was once a one-man band and entertainer in vaudeville and night club circuits. He created many inventions with music in mind, such as a banjo apparatus he used to strum a banjo with his foot while playing a violin. The apparatus cost only 35 cents originally and used a window sash spring and a pedal fastened with a choke from a Model T Ford.

Historian Max Noggle noted that a thriving village just west of Circleville known as Spunketown had a couple of distilleries, a carding mill and a large woolen cloth factory. The nucleus of Spunketown at the time was a flouring mill built by William and Phillip Foresman in 1812.

Alva Barringer, marshal of Tarlton, took up the art of clockmaking to occupy his spare time. He and his wife of 50 years had lived in the village for 13 years, where he had gained distinction as a cabinet maker.

Final payment was made on the football bleachers at Circleville High School. Many residents had signed note obligations to guarantee payment on the bleachers which were built in 1952 at an initial cost of \$8,000.

Circleville shared with Cincinnati the distinction of being Ohio's coldest spots Jan. 11.

Both had official minus 8 readings.

A large horse barn on the McKinley Kirk farm located one mile east of New Holland, was destroyed by fire. Loss of the barn and its contents — including a year-old harness racing horse Pink Cloud—was set at \$200,000.

Plywood doors were installed at the entrance to the county courthouse, creating some amazement of residents as to the location of the massive wooden doors removed. Commissioners reported that the old doors were being refinished after years of weather and neglect.

The severe cold which held Roundtown in its grips for several weeks resulted in a switch in head attire for members of the city police department. The patrolmen adopted gray furry Alaskan type hats and Pil. Wesley Barton dubbed his cruiser "the sled."

They'll Do It Every Time

The Good Life

The movement of the skilled labor market around the world in the last decade or so has been an interesting phenomenon. Interesting because it reflects not only economic forces but something about the work values of the people involved.

Switzerland has enjoyed one of the more consistent periods of prosperity since World War II of any nation. A small country of limited population, Switzerland has had to rely upon tens of thousands of workers from all over Western Europe to fill out its labor force.

West Germany is another nation which has kept its labor force productively employed for many years and has had to import additional skilled labor. Some 17,000 of them were Britons in search of better jobs and higher pay.

Both were available in West Germany, but at a price. The German tradition of hard work and quality skills has not diminished. It has not been easy for some Britons to adjust, after years of being weaned on a system which featured higher pay for less work.

The trouble is, of course, that the British system eventually was caught up in its own excesses. Unemployment is high, trade is off and the economy is depressed. Which explains why thousands of Britons are seeking their livelihood elsewhere.

The good life is still available. But the price is hard and conscientious work. It only seemed for a while as if greater rewards were available for less effort. That is not a formula which holds under the test of time.

Before the discovery of cortisone and ACTH, paraffin was one of the few available methods that brought relief for some forms of arthritis.

The way it is used is rather simple. Ordinary paraffin, the kind used to preserve jams, is melted down and then allowed to cool to about 150 degrees F.

Care must be used because paraffin, by its appearance, can be deceptive, and the heat may cause very painful burns. The outer layer of the paraffin may seem cool, while underneath it may be burning hot.

The painful foot or hand is covered with a thin layer of mineral oil, and then dipped into the warm paraffin. When the hand or foot is exposed to the air, the paraffin becomes firm and covers the painful joints. This can be repeated several times so that the thickness of the paraffin increases.

Paraffin brings relief by retaining the heat for a long time. The heat is apparently more penetrating than that of an electric pad.

I want to emphasize that paraffin should be used with care, and with a doctor's advice.

This old-fashioned method is certainly not a substitute for the great advantage of the newer drugs and hormones.

After a child has had fever with a cold, how soon is it safe to send him back to school?

Mrs. T. K., Wash. Dear Mrs. K.: The persistence of fever is probably the simplest and best criterion in such cases.

Generally, most physicians think that if a child's temperature has been normal for two or three days, it is perfectly safe to send him back to school.

There is, of course, no firm rule about this. The severity of the illness and the weakness associated with it may make it wise for the child to stay home for a few extra days in order to recoup his energy.

I simply can't believe that the loud rock music my son listens to won't harm his hearing. What do you think?

Mr. B. N., Calif. Dear Mr. N.: The ear has a marvelous dampening mechanism to protect it against the bombardment of such loud sounds.

The effect on your emotions is probably greater than the effect on your young son's hearing.

Aid To Parochial Schools

By JOHN CHAMBERLAIN

The action of the three-judge Federal Court that voided state aid to parochial schools in New York State puts President Richard Nixon right on the spot.

It was just about six months ago that Cardinal Cooke of the Archdiocese of New York, speaking to the Supreme Convention of the Knights of Columbus, bemoaned what was happening to the church-related schools of America in our age of superinflation. Citizens who wished to exercise their freedom of choice in education by sending their children to Catholic, Jewish or even private secular schools were being put in almost unbearable financial double jeopardy. First, they had to fork up their tax money to support the public school system, then, on top of this, they had to pay private school fees. The inequities, the discriminations, of the system were, or at least should have been, obvious.

Sparkling to the Cardinal's challenge for clarity, Richard Nixon remarked that, "as Cardinal Cooke has pointed out, at a time we see those private and parochial schools which lay such stress on these religious values, as we see them closing at the rate of one a day, we must resolve to stop that trend and turn it around. You can count on my support to do that."

But what is there to do? The three-judge court that has just enjoined the State of New York from paying out \$33 million to "non-public" schools for "secular education services" based its judicial ukase on a prior Supreme Court decision as well as on lower court action in voiding similar aid in Pennsylvania and Connecticut. Direct payments to private schools even for such religiously neutral services as the teaching of chemistry or Latin seemed to be permanently out.

If Richard Nixon can do nothing to redeem his promise to Cardinal Cooke, it could cost the taxpayers of America a billion dollars a year. Protestants no less than Catholics should resent this. For if the 4,500,000 American youngsters whose parents have chosen annually to send to parochial schools are to be dumped on the public school system, it will lead to a deterioration of education all over the country. The irony is that the parochial schools do not discriminate against anybody on the basis of color or ethnic origins or even, for that matter, religion. (Parochial schools stand ready to take Protestant children if parents are willing.)

It seems to me, though I am admittedly a layman insofar as reading the law is concerned,

that parents who want to send their children to church-related schools of their own choice still have a legal recourse. The First Amendment to the Constitution, which enjoins the separation of Church and State, also specifies that nobody shall be prevented from exercising his right to freedom of religion. Forcing a parent to take his child out of a parochial school because he can't afford to support two separate school systems is, if language means anything, an obvious infringement of the right to religious protection under the First Amendment itself.

Without giving a penny directly to any school, a state legislature or even a town council might choose to give educational vouchers to parents that would be cashable in any school, whether public or private. Or there could be tax remission to parents for school preferences. Justice Burger's Supreme Court has not yet pronounced on "parent aid" as distinct from parochial school

aid. A voucher system would treat the educational tax dollar of the individual citizen in an equitable manner. And the citizen, using what, after all, is his own money in the school of his choice, would be able to defend his right to freedom of religion as guaranteed by the First Amendment.

Governor Nelson Rockefeller of New York is leery of a voucher system for purely political reasons: if vouchers were to be voted universally, he might have to reckon with snide remarks about a "Rockefeller school plan for Alabama." But if "parent aid" were used in the South to build up discriminatory private schools, it wouldn't be long before the courts would step in to force anti-discriminatory standards on any school that tried to cash a voucher.

The ball is now in Nixon's court. If he is to live up to his summer's promise, he must come out for educational vouchers or some related form of "parent aid."

George Porter, S. Court St., told his story of the marvels of greasepaint and that old soft shoe that were vaudeville. Porter, then 54, was once a one-man band and entertainer in vaudeville and night club circuits. He created many inventions with music in mind, such as a banjo apparatus he used to strum a banjo with his foot while playing a violin. The apparatus cost only 35 cents originally and used a window sash spring and a pedal fastened with a choke from a Model T Ford.

Historian Max Noggle noted that a thriving village just west of Circleville known as Spunkietown had a couple of distilleries, a carding mill and a large woolen cloth factory. The nucleus of Spunkietown at the time was a flouring mill built by William and Phillip Foreman in 1812.

Alva Barringer, marshal of Turlington, took up the art of clockmaking to occupy his spare time. He and his wife of 50 years had lived in the village for 13 years, where he had gained distinction as a cabinet maker.

Final payment was made on the football bleachers at Circleville High School. Many residents had signed note obligations to guarantee payment on the bleachers which were built in 1952 at an initial cost of \$8,000.

Circleville shared with Cincinnati the distinction of being Ohio's coldest spots Jan. 11.

Guyer Runs; McCulloch Bows Out

FINDLAY, Ohio (AP) — State Sen. Tennyson Guyer, R-2 Findlay, Tuesday formally announced his candidacy for the new Fourth Congressional District.

Guyer will seek the seat being vacated by U.S. Rep. William McCulloch, 71, R-Piqua, who has been in Congress since 1948.

Guyer's home in Hancock County, formerly in the Eighth District, will be in the new Fourth under the redistricting plan passed by the legislature last week.

The general assembly, in order to eliminate one of Ohio's 24 congressional districts, combined McCulloch's Fourth with the Eighth of U.S. Rep. Jackson Betts, R-Findlay.

Betts had already announced plans for retirement. McCulloch first announced he would leave his seat, but Jan. 7 said he would be a candidate for reelection. Shortly before Guyer's announcement Tuesday, he announced he had changed his mind again and would not run.

McCulloch is the dean of the Ohio congressional delegation and top-ranking Republican on the Judiciary Committee. He has persistently fought for civil rights legislation, although his district includes few black voters.

McCulloch was credited with playing the key role in the passage of the 1964 Civil Rights Act.

Views on Television

By CYNTHIA LOWERY
AP Television-Radio Writer

NEW YORK (AP) — The three television networks have just about completed their mid-season salvage operations. Early indications are that change has helped some programs but not many.

"The Sonny and Cher Show," one of CBS's new entries, started strong and continues comfortably among the top 20 shows in the most recent Nielsen ratings. With NBC's "Ironside" moved out of competition, "The Glen Campbell Show" is again basking in the sunlight of neck and neck with "Mod Squad." This may be temporary since NBC has not yet moved in its special artillery: It filled the time slot Tuesday night with a rerun of a show originally displayed in September.

"Bewitched," on ABC, seems to have lost ground by its shift into the Saturday night slot opposite "All in the Family," and James Garner's "Nichols" on NBC is finding on Tuesday nights the same ratings problem it encountered earlier this season on Thursdays.

CBS also has moved aggressively to shore up its daytime schedule. For several seasons its long-running soap opera, "As the World Turns" was the most popular daytime show on any network. Recently, ABC's "General Hospital" forged into the No. 1 spot.

The network has persuaded Erna Phillips, who created the series in 1956 and was its head

writer for years, to return after an absence of almost three years. A new producer also was brought in.

CBS also had a problem with its "Search for Tomorrow," in its 21st year the oldest daytime serial on the air. Melba Rae, the actress who had played an important role almost from the beginning, died suddenly on Dec. 29. Her role of Marge Bergman was written out for a short period and now the character will be eliminated.

"We are just going to let the audience assume that her husband is a widower and we will make occasional references to the fact that Marge has passed away," explained a network spokesman.

Meanwhile, NBC News is saying some face-lifting on its monthly two-hour "Chronolog." It will be divided into two parts, one section for straight news reports including investigative research and the other for what the network described as "sardonic examinations of freakish events and tongue-in-cheek peeks at the human conditions."

The management felt that when, for example, Janis Joplin's death was treated side-by-side with a feature on a barber who used a blowtorch for haircuts, both segments suffered.

Springfield Couple Dies From Fumes

SPRINGFIELD, Ohio (AP) — An elderly Springfield couple died Tuesday of what officials believe was carbon monoxide poisoning.

Police broke into the couple's home after friends were unable to raise anyone there and found Clyde Moore, 74, dead, and his wife, Ethel, 76, unconscious. Mrs. Moore died a couple of hours later in Mercy Medical Center.

Officials said they found a space heater with a clogged flue pipe in the home.

Another Strike Hits Canada

MONTREAL (AP) — Another strike by technicians added Tuesday to Canada's transportation woes, with its airports already all but shut down by a walkout of air traffic controllers.

About 2,200 radar, navigational aids and communications technicians employed by the federal government began a 24-hour nationwide strike to protest a conciliation board report on contract negotiations. Only emergency service will be maintained.

The strike immediately affects shipping, with airports closed. But an end to the air controller strike would be meaningless, if the technicians are on strike.

Views on Television

By CYNTHIA LOWERY
AP Television-Radio Writer

NEW YORK (AP) — The three television networks have just about completed their mid-season salvage operations. Early indications are that change has helped some programs but not many.

"The Sonny and Cher Show," one of CBS's new entries, started strong and continues comfortably among the top 20 shows in the most recent Nielsen ratings. With NBC's "Ironside" moved out of competition, "The Glen Campbell Show" is again basking in the sunlight of neck and neck with "Mod Squad." This may be temporary since NBC has not yet moved in its special artillery: It filled the time spot Tuesday night with a rerun of a show originally displayed in September.

"Bewitched," on ABC, seems to have lost ground by its shift into the Saturday night spot opposite "All in the Family," and James Garner's "Nichols" on NBC is finding on Tuesday nights the same ratings problem it encountered earlier this season on Thursdays.

CBS also has moved aggressively to shore up its daytime schedule. For several seasons its long-running soap opera, "As the World Turns" was the most popular daytime show on any network. Recently, ABC's "General Hospital" forged into the No. 1 spot.

The network has persuaded Erna Phillips, who created the series in 1956 and was its head

Springfield Couple Dies From Fumes

SPRINGFIELD, Ohio (AP) — An elderly Springfield couple died Tuesday of what officials believe was carbon monoxide poisoning.

Police broke into the couple's home after friends were unable to raise anyone there and found Clyde Moore, 74, dead, and his wife, Ethel, 76, unconscious. Mrs. Moore died a couple of hours later in Mercy Medical Center.

Officials said they found a space heater with a clogged flue pipe in the home.

Another Strike Hits Canada

MONTREAL (AP) — Another strike by technicians added Tuesday to Canada's transportation woes, with its airports already all but shut down by a walkout of air traffic controllers.

About 2,200 radar, navigational aids and communications technicians employed by the federal government began a 24-hour nationwide strike to protest a conciliation board report on contract negotiations. Only emergency service will be maintained.

The strike immediately affects shipping, with airports closed. But an end to the air controller strike would be meaningless, if the technicians are on strike.

Wedding Plans Are Revealed

Mr. and Mrs. Willis F. Corcoran, Route 1, Chillicothe, announce the engagement and approaching marriage of their daughter Mary Ruth to Robert Thomas Harp, son of Mr. and Mrs. Robert L. Harp, Sunbury.

Miss Corcoran is a 1967 graduate of Ohio State University with a major in Home Economics Education and is a Home Economist with the Dayton, Power, and Light Company, Greenville.

Mr. Harp is a 1966 graduate of Ohio State University with a major in Agricultural Education and is an agricultural instructor in the Greenville City Schools, Greenville.

The couple will exchange vows during an open church wedding March 26, in the Kingston United Methodist Church, Kingston.

The couple will exchange vows during an open church wedding March 26, in the Kingston United Methodist Church, Kingston.

She feels that guidance is the bridge through adolescence and that minor personal problems must be solved before students can achieve academically. Mrs. Ralston was introduced by Mrs. Gunner Musselman who read New Year's resolutions and also a paper entitled "Tomorrow Will Be A New Day."

The meeting was held at the home of Mrs. Dwight Steele, with Miss Elizabeth Tolbert as co-hostess.

Mrs. Maxine Andregg conducted the business meeting. Martha Circle will assist with serving the YMCA annual dinner on Feb. 9th and also a luncheon on February 12th.

Refreshments were served to 16 members and a guest, Mrs. Fritz Jacobs, WSCS president.

The February meeting will be at the home of Mrs. Virgil Cress.

Five Points WCTU Meets

Mrs. Herman Porter hosted the Wednesday afternoon meeting of Five Points Women's Christian Temperance Union in her home.

Mrs. Francis Furniss, president, presided over the meeting. Her theme for the day was "The Splendor Of Self-Control." Members sang "I Would Be True" and Mrs. Loring Stoer read Scripture from Proverbs 5: 1-33 verses followed by meditation and prayer.

It was announced that the union has over 200 pages of temperance literature to be given to the school for students to use. There are also 12 temperance books to be placed in the library. Mrs. Arthur Winfough, director of the education department, read "Honesty In School Laws."

Mrs. Lloyd Neff read "Honesty In Government" in connection with the citizenship department. A lengthy discussion followed and members agreed not to have the Frances Willard Tea next month. The meeting ended with the benediction. Refreshments were served by Mrs. Porter.

The March meeting will be held in the home of Mrs. Francis Furniss.

FUN TIME DAY — Wearing dresses, hats, jewelry and carrying purses bought from each other to raise money for charity are officers and

charter members of Union Guild. From left to right are: Mrs. Austin Hoover, Mrs. Floyd Ott, Mrs. Lawrence

Goodman, Mrs. Roy Newlon, Mrs. Olan Schooley, Mrs. Lawrence Krimmel and Mrs. Wayne Fee.

Annual Girl Scout Cookie Order Time Approaching

Girl Scouts will soon be taking orders for cookies. The yearly project is the main source of income they may use in whatever way they wish.

There are five varieties to choose from and they are packed in family size boxes. Included are smooth fudge creams, chocolate and vanilla cremes, Savannah, chocolate mint and Scot-teas.

For every package she sells, a Girl Scout earns 10 cents for her troop. The troop spends its bonus money for whatever special adventure it plans. Maybe for a camping weekend, a summer trip or expenses for a service project.

Last year Logan Trails Service Unit realized a profit of \$600 for its local projects. Council proceeds go for over-all expenses such as improvements and maintaining Girl Scout camp sites.

Girl Scouts will ring doorbells between Jan. 22nd and 30th. They will be back with the cookies between Feb. 22nd and March 3rd and will collect for them at that time. There will be 10 troops from Logan Trails Service Unit from the Circleville and Laurelville area.

In 1971 the girls sold 5,739 boxes, an increase of 36 per cent over 1970 and an increase of 75 per cent over 1969.

Those wishing to order and are not called upon are requested to contact any of the following: Mrs. Burton Kirkman, Service Unit product sales representative; Mrs. Marjorie Ward, Troop 89; Mrs. Robert

VanGundy, Troop 117; Mrs. Willis Flowers, Troop 425; Mrs. William Fischer, Troop 490; Mrs. Thomas Ebert, Laurelville, Troop 625; Mrs. Frank Uland, Troop 944; Mrs. Jane Strawser, Troop 1032; Mrs. Paul Berrigan, Troop 1051; Mrs. Stanley Spring, Troop 1132; Mrs. Carolyn Dade, Troop 1176.

Circle Program Presented By Patty Kirkwood

Circle 4 of Good Shepherd United Methodist Church met recently in the home of Mrs. Betty Betts, 240 Marshall Road. The program was presented by Patty Kirkwood.

Elizabeth Valentine opened the meeting with prayer and a reading entitled "New Year Thought."

It was announced that the World Day of Prayer will be March 3rd with the theme "All Joy Be Yours." The business portion was closed by all repeating "The Lord's Prayer."

The Call to Prayer and Self-Denial program entitled "Open Up Your Life" was participated in by all members. Mrs. Kirkwood displayed a poster and gave different interpretations of the drawing. Members then sang "Open My Eyes."

The program was in nine parts and for each part the word was revealed on the poster. Parts were: stillness, thanksgiving, awareness, examination, now, openness, giving, doing and mission. Litany was read and the program closed with singing the hymn "O, Master Let Me Walk With Thee."

Refreshments were served by the hostess assisted by her daughter.

The February meeting will be in the home of Mrs. Patty Kirkwood with Delorice Bennington as the program leader.

Fun Time Day Conducted By Union Guild

Services were terminated at Union Chapel Church located at Routes 22 and 138, 40 years ago this March but the ladies of the church continued to meet each month.

The latest meeting of Union Guild was held Tuesday afternoon in the home of Mrs. Wayne Fee, Route 3, with a Fun Time day. It culminated a four month period of raising money by bringing a dress to sell for 25 cents one month, then a hat, a purse and jewelry. Members wore the items purchased at the carry-in dinner and social afternoon. Two charter members, Mrs. Roy Newlon and Mrs. Lawrence Goodman were present.

All money raised by the guild is given to charity.

On Tuesday, members brought clothing, canned food and bedding to be given to a family whose home in Darbyville was burned Sunday morning. A cash donation will also be made. Guild members visited shut-ins and sent cards to them.

Members are: Mrs. Austin (Evelyn) Hoover, vice president; Mrs. Floyd (Muriel) Ott, flower chairman; Mrs. Lawrence Goodman, charter member; Mrs. Roy (Helen) Newlon, charter member and president; Mrs. Olan (Pauline) Schooley, treasurer; Mrs. Lawrence (Martha) Krimmel, secretary; Mrs. Wayne (Magdalene) Fee, welfare chairman.

Mrs. Orin (Mabel) Bircher, Mrs. Fred (Nettie) Dean, Mrs. Willard (Marveen) Dudleson, Mrs. Clyde (Alice) Herron, Mrs. George (Edna) Immel, Mrs. Gail (Edith) Linton, Mrs. Ida Mitchell, Mrs. Jim (Hazel) Mowery, Mrs. Henry (Grace) Streitenberger and Mrs. David (Lucille) Terry.

Hudson's Bay trappers were the first Europeans to see Plains Indians hunting buffalo from horseback.

Church Circle Welcomes New Members

Circle 1 of Good Shepherd United Methodist Church was

entertained Thursday evening in the home of Mrs. Everett Speakman, Swackhammer Road. Attending were seven members and three guests. The guests, Mabel and Maggie McCracken, and Mrs. Eloise Fee were all welcomed as new members.

Circle leader, Mrs. Eugene Siniff, opened the meeting with prayer. Members responded to roll call by telling their birth date.

Mrs. Speakman, chairman of spiritual life, distributed prayer partners for the year with a suggestion that they be remembered on their birthday and holidays with cards. She also gave a reading, "Pray For One Another." Mrs. Siniff closed the business with some excerpts from a New Year's sermon and a poem.

Program leader, Mrs. Robert Dumm, used as her subject

"Open Your Life." She used an umbrella as an object lesson. It is of no value to us until it is opened. When our lives are opened to Christ we become as an umbrella, a spiritual umbrella. She was assisted in the program by all present.

Mrs. Speakman said grace before serving refreshments.

Couple Wed in Florida

Announcement is made of the recent marriage of Mrs. Edna F. Eisnaugle and Meeker Metzger Jr., both of Chillicothe.

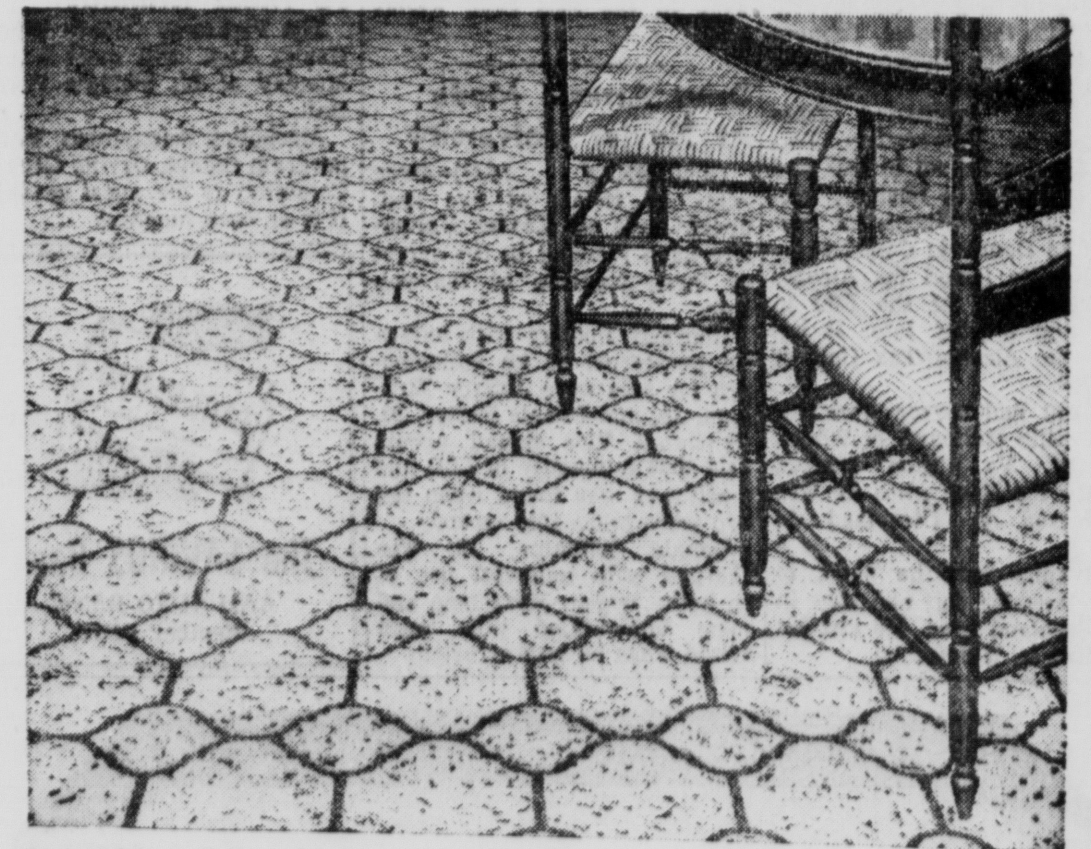

The couple exchanged vows Jan. 13 in a ceremony in Miami Beach, Fla. Their parents are Mr. and Mrs. John Fraley, Chillicothe, and Mrs. Meeker Metzger Sr. and the late Mr. Metzger, also of Chillicothe.

Mrs. Francis Furniss, president, presided over the meeting. Her theme for the day was "The Splendor Of Self-Control." Members sang "I Would Be True" and Mrs. Loring Stoer read Scripture from Proverbs 5: 1-33 verses followed by meditation and prayer.

It was announced that the union has over 200 pages of temperance literature to be given to the school for students to use. There are also 12 temperance books to be placed in the library. Mrs. Arthur Winfough, director of the education department, read "Honesty In School Laws."

Mrs. Lloyd Neff read "Honesty In Government" in connection with the citizenship department. A lengthy discussion followed and members agreed not to have the Frances Willard Tea next month. The meeting ended with the benediction. Refreshments were served by Mrs. Porter.

The March meeting will be held in the home of Mrs. Francis Furniss.

FUN TIME DAY — Wearing dresses, hats, jewelry and carrying purses bought from each other to raise money for charity are officers and

charter members of Union Guild. From left to right are: Mrs. Austin Hoover, Mrs. Floyd Ott, Mrs. Lawrence

Goodman, Mrs. Roy Newlon, Mrs. Olan Schooley, Mrs. Lawrence Kimmel and Mrs. Wayne Fee.

Annual Girl Scout Cookie Order Time Approaching

Girl Scouts will soon be taking orders for cookies. The yearly project is the main source of income they may use in whatever way they wish.

There are five varieties to choose from and they are packed in family size boxes. Included are smooth fudge, cream, chocolate and vanilla, cream, Savannah, chocolate mint and Scot-teas.

For every package she sells, a Girl Scout earns 10 cents for her troop. The troop spends its bonus money for whatever special adventure it plans. Maybe for a camping weekend, a summer trip or expenses for a service project.

Last year Logan Trails Service Unit realized a profit of \$600 for its local projects. Council proceeds go for over-all expenses such as improvements and maintaining Girl Scout camps.

Girl Scouts will ring doorbells between Jan. 22nd and 30th. They will be back with the cookies between Feb. 22nd and March 3rd and will collect for them at that time. There will be 10 troops from Logan Trails Service Unit from the Circleville and Laurelville area.

In 1971 the girls sold 5,739 boxes, an increase of 36 per cent over 1970 and an increase of 75 per cent over 1969.

Those wishing to order and are not called upon are requested to contact any of the following: Mrs. Burton Kirkman, Service Unit product sales representative; Mrs. Marjorie Ward, Troop 89; Mrs. Robert

VanGundy, Troop 117; Mrs. Willis Flowers, Troop 425; Mrs. William Fischer, Troop 490; Mrs. Thomas Ebert, Laurelville, Troop 625; Mrs. Frank Uland, Troop 944; Mrs. Jane Strawser, Troop 1032; Mrs. Paul Berrigan, Troop 1051; Mrs. Stanley Spring, Troop 1132; Mrs. Carolyn Dade, Troop 1176.

Circle Program Presented By Patty Kirkwood

Circle 4 of Good Shepherd United Methodist Church met recently in the home of Mrs. Betty Betts, 240 Marshall Road. The program was presented by Patty Kirkwood.

Elizabeth Valentine opened the meeting with prayer and a reading entitled "New Year Thought."

It was announced that the World Day of Prayer will be March 3rd with the theme "All Joy Be Yours." The business portion was closed by all repeating "The Lord's Prayer."

The Call to Prayer and Self-Denial program entitled "Open Up Your Life" was participated in by all members. Mrs. Kirkwood displayed a poster and gave different interpretations of the drawing. Members then sang "Open My Eyes."

The program was in nine parts and for each part the word was revealed on the poster. Parts were: stillness, thanksgiving, awareness, examination, now, openness, giving, doing and mission. Litany was read and the program closed with singing the hymn "O, Master Let Me Walk With Thee."

Refreshments were served by the hostess assisted by her daughter.

The February meeting will be in the home of Mrs. Patty Kirkwood with Delorice Bennington as the program leader.

Fun Time Day Conducted By Union Guild

Services were terminated at Union Chapel Church located at Routes 22 and 138, 40 years ago this March but the ladies of the church continued to meet each month.

The latest meeting of Union Guild was held Tuesday afternoon in the home of Mrs. Wayne Fee, Route 3, with a Fun Time day. It culminated a four month period of raising money by bringing a dress to sell for 25 cents one month, then a hat, a purse and jewelry. Members wore the items purchased at the carry-in dinner and social afternoon. Two charter members, Mrs. Roy Newlon and Mrs. Lawrence Goodman were present.

All money raised by the guild is given to charity.

On Tuesday, members brought clothing, canned food and bedding to be given to a family whose home in Darbyville was burned Sunday morning. A cash donation will also be made. Guild members visited shut-ins and sent cards to them.

Members are: Mrs. Austin (Evelyn) Hoover, vice president; Mrs. Floyd (Muriel) Ott, flower chairman; Mrs. Lawrence Goodman, charter member; Mrs. Roy (Helen) Newlon, charter member and president; Mrs. Olan (Pauline) Schooley, treasurer; Mrs. Lawrence (Martha) Kimmel, secretary; Mrs. Wayne (Magdalene) Fee, welfare chairman.

Mrs. Orin (Mabel) Bircher, Mrs. Fred (Nettie) Dean, Mrs. Willard (Marveen) Dudson, Mrs. Clyde (Alice) Herron, Mrs. George (Edna) Immel, Mrs. Gail (Edith) Linton, Mrs. Ida Mitchell, Mrs. Jim (Hazel) Mowery, Mrs. Henry (Grace) Streitenberger and Mrs. David (Lucille) Terry.

Hudson's Bay trappers were the first Europeans to see Plains Indians hunting buffalo from horseback.

Church Circle Welcomes New Members

Circle 1 of Good Shepherd United Methodist Church was

entertained Thursday evening in the home of Mrs. Everett Speakman, Swackhammer Road. Attending were seven members and three guests. The guests, Mabel and Maggie McCracken, and Mrs. Eloise Fee were all welcomed as new members.

Practical Nurses Hold Social Meet

Licensed Practical Nurses Association met Monday evening at Calvary United Methodist Church.

Due to the illness of several members the business meeting was postponed until next month. The members, Barbara Davis, Louise Garner, Betty Imler and Anna Mankey, along with two guests, Ella Adams and Janice Young spent a social evening. Refreshments were served by Anna Mankey.

The February meeting will be held at the same location.

Circle leader, Mrs. Eugene Siniff, opened the meeting with prayer. Members responded to roll call by telling their birth date.

Mrs. Speakman, chairman of spiritual life, distributed prayer partners for the year with a suggestion that they be remembered on their birthday and holidays with cards. She also gave a reading, "Pray For One Another." Mrs. Siniff closed the business with some excerpts from a New Year's sermon and a poem.

Program leader, Mrs. Robert Dumm, used as her subject

"Open Your Life." She used an umbrella as an object lesson. It is of no value to us until it is opened. When our lives are opened to Christ we become as an umbrella, a spiritual umbrella. She was assisted in the program by all present.

Mrs. Speakman said grace before serving refreshments.

Canada Cuts Seal Hunting This Spring

OTTAWA (AP) — The Canadian government has sharply curtailed seal hunting this spring in the Gulf of St. Lawrence and cut the catch off Labrador nearly 40 per cent.

The action, announced Tuesday night, may be the first step toward a total moratorium on seal hunting off Canada's east coast, the target of animal lovers in many countries who contend that baby seals are cruelly clubbed to death.

In line with recommendations by an advisory committee appointed last year to study all aspects of the annual hunt, the government barred aircraft and ships from taking part in the hunt in the gulf and announced agreement with Norway to limit this year's catch off Labrador to 150,000 pelts, compared with a quota of 245,000 pelts last year.

Though only partial, the ban affects most of the gulf catch by commercial sealing fleets. Hunters will be able to operate from shore, when ice conditions permit, as will boats less than 65 feet long.

Fisheries Minister Jack Davis said the ban is only for this year, and long-term government policy has not been fixed.

Davis denied at a news conference that the action was taken in response to the public outcry. He said it was based on principles of conservation and good management, to keep the seal herds from getting so large that their demand for food endangers commercial fishing catches.

Rochelle Hudson, Film Star, Dies

PALM DESERT, Calif. (AP) — Rochelle Hudson, a brunette film star of the 1930s and '40s who later costarred in the television series "That's My Boy," is dead at 55.

The Riverside County sheriff's office said she may have suffered a heart attack and announced that an autopsy would be performed. She was found dead Monday at her Palm Desert Country Club home.

Miss Hudson costarred with Will Rogers, Fredric March and other leading men of the '30s and '40s. The 75 pictures she made included "Imitation of Life," "Rebel Without a Cause," "Are These Our Children?" and "Les Miserables."

Hope State Pay Increases Can Be Paid Starting Feb. 4

COLUMBUS, Ohio (AP) — State officials say they hope salary increases granted state employees by the legislature will be included in Feb. 4 paychecks.

Anticipated payment of the raises in Friday checks was withheld pending a review of the state salary package by the federal Pay Board and the Cost of Living Council.

Increases in the package exceed 10 per cent, while the general federal maximum is 5.5 per cent.

State Personnel Director Paul Corey said Tuesday the office of Atty. Gen. William Brown advised him the raises should not be issued until certain procedural steps are taken.

One of the steps is the actual signing of the bill. Legislative leaders are to sign it Thursday and Gov. John Gilligan soon afterward.

Corey said he has given the Pay Board and the Cost of Living Council complete documentation on the need to grant state employees the pay increase.

Meanwhile, a state and local government advisory committee to the Cost of Living Council is scheduled to make a recommendation on the Ohio plan at a meeting Thursday.

John Millett, chairman of the Ohio Board of Regents and a member of the advisory committee, said a federal decision on the Ohio pay package is likely next week.

"If we are really interested in getting these raises, we should go according to the procedures of the Cost of Living Council," Millett said.

State Auditor Joseph Ferguson said Tuesday he had been advised that the state could be subject to stiff fines if paychecks containing the raises were issued and then the Pay Board rejected the increases.

"Hopefully," he said, "we'll be able to include the pay raises granted by the legislature in the Feb. 4 paychecks."

The salary package will affect 49,000 state employees, 15,000 workers on state campuses, more than 6,000 county welfare workers and several hundred members of the legislative staff.

Humphrey Sees Ohio Win Despite 'Big Shot' Foes

CLEVELAND, Ohio (AP) — Sen. Hubert Humphrey, D-Minn., appearing undaunted by the inroads made by Sen. Edmund Muskie in Ohio, says he is confident he will win the state's Democratic presidential primary.

"I don't need the VIPs and big shots," Humphrey told a cheering labor audience here Tuesday night in an obvious reference to Gov. John Gilligan's backing of Muskie.

"Just give me people, the rank and file...I want to go to the people...we the people" will be the slogan of my campaign."

Cleveland labor leaders turned out an enthusiastic audience at Plumber's Hall for the final stop in Humphrey's long day of campaigning through Ohio, and Humphrey responded with a rousing speech, ranging from an analysis of the 1968 presidential election, when "we had that man (Nixon) on the ropes (but)...ran out of time," to an attack on President Nixon for allegedly unkept campaign promises and for what Humphrey called anti-labor moves.

The Minnesota senator, following Muskie into Ohio by one day, came to Cleveland from meetings with Democratic supporters in Columbus. He said he felt "very much encouraged" by those talks.

He told newsmen he had received "remarkable support" from labor, students, blacks and "the general (party) leadership." Asked about Gilligan's backing of Muskie, Humphrey said he thought Democratic voters in Ohio "want to make their own choice. They won't have anyone twisting their arms."

Humphrey conceded that the delegate battle against his former running mate was an uphill fight. But he told some 300 prospective delegates in Columbus "we're going to win."

Pay Board Eyes Railroad Contract

WASHINGTON (AP) — The Pay Board meets again today to decide what to do about a 42-per-cent pay increase for 140,000 railroad men.

The board met publicly, then in executive session Tuesday, to discuss the pact that the unions say they will implement immediately if approved. The railroad lines say they will have to ask for rate hikes if it goes through.

William Dempsey, chairman of the National Railway Labor Conference, said the contract has some major advances in work rules, but he said owners would refrain from a recommendation to the board on whether to approve the pact.

Couple Refuses 'Abortion Subsidy'

HARRISBURG, Pa. (AP) — Declaring themselves conscientious objectors to a state program of subsidizing therapeutic abortions for welfare recipients, a Lancaster couple says they will withhold part of their income tax payment.

"Abortion, however defined, violates our consciences," Mr. and Mrs. Mark Gallagher wrote in a letter to their state representative, Harold Horn.

Marijuana Fields Planned By U.S.

SPACE CENTER, Houston (AP) — Test fields of marijuana will be grown in three states this year so the federal government can test a device to detect the plant, an official says.

Dr. Robert Miller of the U.S. Department of Agriculture told a news conference Monday that the test fields in Texas, Arizona and Florida "will be under lock and key, and constantly monitored."

HOW TO BROIL FRESH PORK

Pork chops and steaks are delicious when broiled correctly — completely cooked but not dry. To accomplish this, diagonally slash outer edge of fat on chops or steaks at 1-inch intervals to prevent curling (do not cut into lean). Set oven control at broil and/or 500 degrees. Place meat on rack in broiler pan; place broiler pan so top of meat is 3-5 inches from heat. Broil until brown.

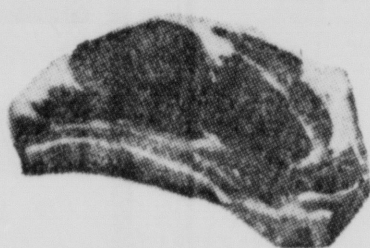

The meat should be half done by this time. If desired, season brown side with salt and pepper. (Always season after browning as salt tends to draw moisture to surface and delay browning). Turn meat; broil until brown. Do not over cook, pork tends to be dry and stringy when cooked too long. Chops 3/4-inch should be done in 20-25 minutes.

Recent Bomb Calls Stir Westfall To Adopt Policy

At a lengthy meeting of the board of education of Westfall Schools Monday at the high school, members adopted a strict policy for principals to follow in case of future bomb threat calls.

This action was brought about as the result of two calls to Superintendent Donald Shearer last Wednesday and Thursday. The callers indicated that an explosive device had been placed at the high school, but the report was proven false after a thorough investigation of the building by school and police authorities.

The board's policy states that in the event of a bomb threat, all pupils will be evacuated to a safe distance from the school. In cooperation with the Pickaway County Sheriff Department, a thorough search will be made of the building. After the search is completed, assuming no explosive device is found, children will be returned to their classrooms and school resumed.

A parent who feels his child or children have become emotionally upset by this experience may, upon the request of the building principal, remove the youngster from the school with the understanding that state attendance laws mandate the child will be counted absent for the time he or she remains out of school. For any classroom assignment or tests missed during that absence, the student will not receive credit.

THE board ruled that no pupil will be permitted to leave the school in the company of anyone other than the parent or guardian unless permission from the responsible person is first presented in written form to the principal of the school.

Students who leave the premises without prior approval of the building principal will be declared truant and be subject to disciplinary action. Absence because of truancy is unauthorized and no credit will be given a student during the period of unauthorized absence.

It was also brought to the attention of the board that guidelines on non-school sponsored materials and student grievances should also be compiled. So it was decided to name the local superintendent or one appointed by him, as the person responsible to review all materials to be released to the student body of formerly non-approved curricula or school activity. His decision will be required before the material can be released. This would apply to any newspaper or student-complied booklet not under the authorization of the school.

Superintendent Shearer was also given the responsibility of reviewing all materials to be released to news media or citizens of the school district prior to its release. These releases must be pertaining to the school or related

organizations such as the PTA, adult education program, etc.

In an effort to be more aware of student grievances, board members set up a list of procedures for the student body to follow to have their grievances heard. Any complaint voiced by the student body must be taken to the elected council representative who will be responsible for bringing it to the student council for discussion. If the council believes it to be important, the secretary of the group must state the problem, simply and in written form, and present it to the high school principal.

IT is the responsibility of the principal to arrange a meeting with the superintendent, a committee of board members and representatives of the student council who will study the problem. If they believe further action is warranted or no solution found at that initial meeting, the superintendent will add it to the agenda of the next regular board meeting. The board also extended an invitation for the council officers to attend all regular meetings of the board so they may relate to council their activities.

Board members agreed to meet today with the Westfall Education Association to discuss negotiations with the board which the association would like to see put into effect for the remainder of this school year.

A bid was accepted from George Snyder and Sons, Columbus in the amount of \$2,787 for repairs to the roof of the Williamsport gymnasium which is leaking badly. They will continue to accept proposals to install a separate heating unit at the gym. In the past the heat for both the school and gym was provided by the boiler, located in the school basement. The school board hopes to place the gymnasium back into operation for both school and community activities.

The education building at Williamsport is still closed and no action has been taken to repair or replace the structure until the board can determine the financial status of the district and complete long and short term studies on the district's needs.

Also accepted was a bid from Garrison Heating and Electric of Mt. Sterling for a 400 amp electrical service to be installed at Darby. The service will replace the present 200 amp service at a base bid of \$1,121.64.

All board members, including the superintendent, will attend the Boardmanship Clinic Feb. 19 sponsored by the Ohio School Boards Assn. in Columbus.

A salary increase was authorized for Mrs. Janet Baker, high school English teacher, since she recently received a Masters degree from Ohio State in the field of her major.

Radiation Treatment Audit Requested By Sen. Kennedy

CINCINNATI (AP) — The Cincinnati branch of the General Accounting Office will undertake an audit of the Defense Department's involvement in a full-body radiation program conducted on indigent terminal cancer patients at the University of Cincinnati.

The audit was requested Thursday in Washington by U.S. Sen. Edward Kennedy, D-Mass., chairman of a health subcommittee of the Senate labor and public welfare committee.

Sen. Mike Gravel, D-Alaska, had questioned whether people were being used as "guinea pigs" in the therapy project.

The Department of Defense admitted supplying funds to the program headed by Dr. Eugene Saenger.

Sen. Robert Taft Jr., R-Ohio, also a member of the subcommittee defended the program after officials of the medical school said all 82 patients had been advised that some of the test results would be given to the government.

Kennedy charged that the Defense Department wanted the results of the tests to determine the effects of radiation on people so reaction to nuclear attack on troops could be estimated.

Another Hughes Book Set For Publication

NEW YORK (AP) — The Howard Hughes publishing derby has gained another entry with the announcement by True magazine that it will publish a story by Noah Dietrich about his 32 years as Hughes' top aide.

Dietrich, who worked for the billionaire industrialist from 1925 to 1957, said last week that he had completed a book on Hughes—the third such work to be announced since Dec. 7.

matching funds from the state under the Vocational Education Amendment Act of 1968 qualifying Westfall for assistance in purchasing new equipment for the high school vocational agriculture program. The total sought is \$457.10 for half of the purchase price of drill sets, arc welders and tool sets for use in the program.

Principals at Darby, Jackson and Monroe were authorized to attend the Ohio Elementary School Principals professional conference Feb. 17, 18 and 19 in Columbus.

Because of Paul Hoskin's coaching duties during baseball season, the board employed James Kibby to handle part of the driver education program during the second semester of the current school year.

Authorization was given for the Jackson 4-H Bicycle Club to use the Jackson gymnasium and school grounds beginning Feb. 15 to hold classes in bicycle safety and repair. On Sunday afternoons, the gym at Jackson will be used by the Williamsport Methodist Church League for a physical conditioning program.

Members of the 1972 Westfall Board are: James Dean, president; Eugene Bush, vice president; Cooke Metzger, Bruce Stevenson, Mrs. Jeanne Lett and clerk, Kenneth E. Reid.

High Court School Review Gives Solace To Southerners

WASHINGTON (AP) — The Supreme Court's first full look at Northern school segregation may provide some temporary solace to Southerners who feel they have been singled out unfairly for stern busing orders. But the eventual ruling could have an impact on all sections of the country, North, West and South, for two principal reasons.

First, the court, in examining Denver schools, will be dealing with a typical American city with its shifting residential patterns and marked minority groups.

The question, here as elsewhere, is whether high concentrations of white children in some schools and blacks (and Spanish-speaking Americans) in others are evidence of officially sustained segregation, without proof that school officials actually were trying to promote segregation.

Second, must most or all schools in a city be desegregated? Or is it enough to take the kind of partial measures the U.S. Circuit Court in Denver decided was legally sufficient when it acted to integrate a handful of schools in Denver but left about a dozen others primarily one race?

The court's decision to hear an appeal by the NAACP Legal Defense and Educational Fund is a major innovation, possibly the work of Chief Justice War-

ren E. Burger who is known to favor one basic approach to school desegregation, North and South.

The court's usual stance in Northern cases is to dispose of them without saying much. The justices did exactly that Monday in turning down blacks from Newark and Jersey City who wanted city and county boundaries crossed in order to accomplish integration.

The blacks' suit had been thrown out by a federal district court in New Jersey. Over the objection of Justice William O. Douglas, who felt the blacks were entitled to a hearing, the Supreme Court simply affirmed the lower court's judgment.

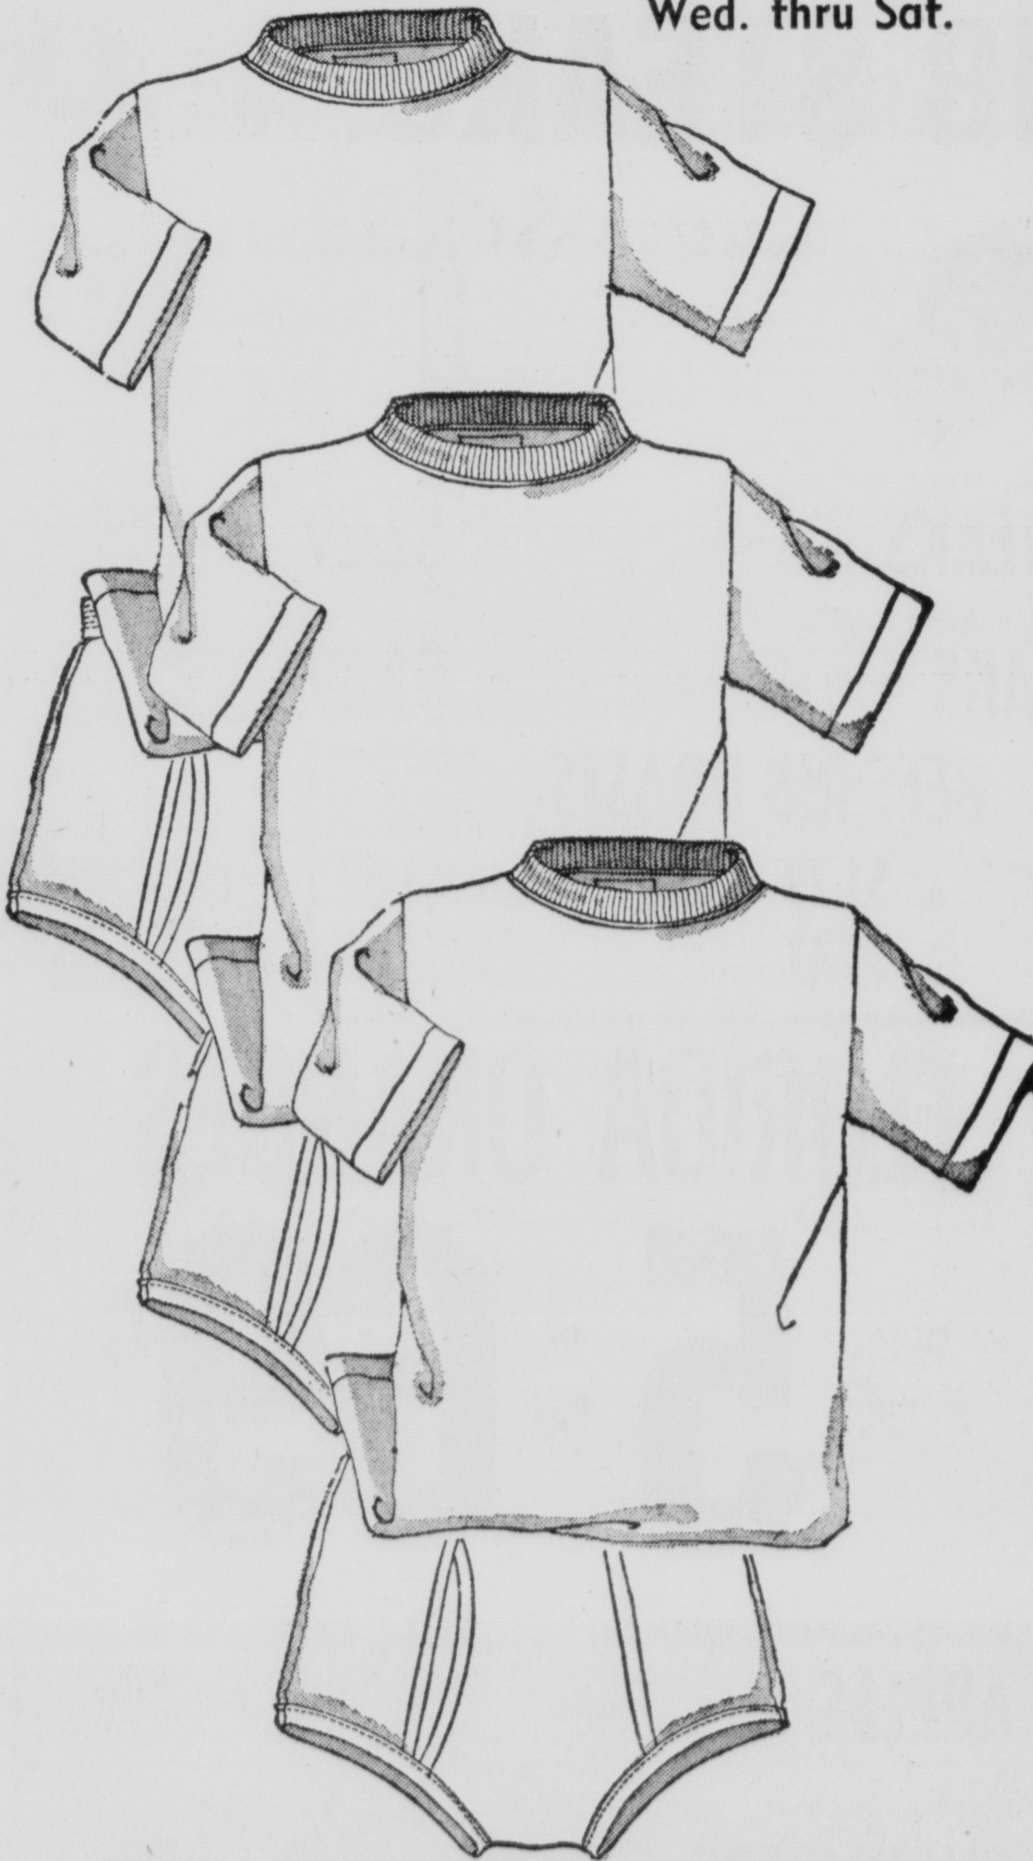

The University of Northern Colorado has had graduate programs since 1913.

Recent Bomb Calls Stir Westfall To Adopt Policy

At a lengthy meeting of the board of education of Westfall Schools Monday at the high school, members adopted a strict policy for principals to follow in case of future bomb threat calls.

This action was brought about as the result of two calls to Superintendent Donald Shearer last Wednesday and Thursday. The callers indicated that an explosive device had been placed at the high school, but the report was proven false after a thorough investigation of the building by school and police authorities.

The board's policy states that in the event of a bomb threat, all pupils will be evacuated to a safe distance from the school. In cooperation with the Pickaway County Sheriff Department, a thorough search will be made of the building. After the search is completed, assuming no explosive device is found, children will be returned to their classrooms and school resumed.

A parent who feels his child or children have become emotionally upset by this experience may, upon the request of the building principal, remove the youngster from the school with the understanding that state attendance laws mandate the child will be counted absent for the time he or she remains out of school. For any classroom assignment or tests missed during that absence, the student will not receive credit.

THE board ruled that no pupil will be permitted to leave the school in the company of anyone other than the parent or guardian unless permission from the responsible person is first presented in written form to the principal of the school.

Students who leave the premises without prior approval of the building principal will be declared truant and be subject to disciplinary action. Absence because of truancy is unauthorized and no credit will be given a student during the period of unauthorized absence.

It was also brought to the attention of the board that guidelines on non-school sponsored materials and student grievances should also be compiled. So it was decided to name the local superintendent or one appointed by him, as the person responsible to review all materials to be released to the student body of formerly non-approved curricula or school activity. His decision will be required before the material can be released. This would apply to any newspaper or student compiled booklet not under the authorization of the school.

Superintendent Shearer was also given the responsibility of reviewing all materials to be released to news media or citizens of the school district prior to its release. These releases must be pertaining to the school or related

organizations such as the PTA, adult education program, etc. In an effort to be more aware of student grievances, board members set up a list of procedures for the student body to follow to have their grievances heard.

Any complaint voiced by the student body must be taken to the elected council representative who will be responsible for bringing it to the student council for discussion. If the council believes it to be important, the secretary of the group must state the problem, simply and in written form, and present it to the high school principal.

IT is the responsibility of the principal to arrange a meeting with the superintendent, a committee of board members and representatives of the student council who will study the problem. If they believe further action is warranted or no solution found at that initial meeting, the superintendent will add it to the agenda of the next regular board meeting. The board also extended an invitation for the council officers to attend all regular meetings of the board so they may relate to council their activities.

Board members agreed to meet today with the Westfall Education Association to discuss negotiations with the board which the association would like to see put into effect for the remainder of this school year.

A bid was accepted from George Snyder and Sons, Columbus in the amount of \$2,787 for repairs to the roof of the Williamsport gymnasium which is leaking badly. They will continue to accept proposals to install a separate heating unit at the gym. In the past the heat for both the school and gym was provided by the boiler, located in the school basement. The school board hopes to place the gymnasium back into operation for both school and community activities.

The education building at Williamsport is still closed and no action has been taken to repair or replace the structure until the board can determine the financial status of the district and complete long and short term studies on the district's needs.

Also accepted was a bid from Garrison Heating and Electric of Mt. Sterling for a 400 amp electrical service to be installed at Darby. The service will replace the present 200 amp service at a base bid of \$1,121.64.

All board members, including the superintendent, will attend the Boardmanship Clinic Feb. 19 sponsored by the Ohio School Boards Assn. in Columbus.

A salary increase was authorized for Mrs. Janet Baker, high school English teacher, since she recently received a Masters degree from Ohio State in the field of her major.

Radiation Treatment Audit Requested By Sen. Kennedy

CINCINNATI (AP) — The Cincinnati branch of the General Accounting Office will undertake an audit of the Defense Department's involvement in a full-body radiation program conducted on indigent terminal cancer patients at the University of Cincinnati.

The audit was requested Thursday in Washington by U.S. Sen. Edward Kennedy, D-Mass., chairman of a health subcommittee of the Senate labor and public welfare committee.

Sen. Mike Gravel, D-Alaska, had questioned whether people were being used as "guinea pigs" in the therapy project. The Department of Defense admitted supplying funds to the program headed by Dr. Eugene Saenger.

Sen. Robert Taft Jr., R-Ohio, also a member of the subcommittee defended the program after officials of the medical school said all 82 patients had been advised that some of the test results would be given to the government.

Kennedy charged that the Defense Department wanted the results of the tests to determine the effects of radiation on people so reaction to nuclear attack on troops could be estimated.

Another Hughes Book Set For Publication

NEW YORK (AP) — The Howard Hughes publishing derby has gained another entry with the announcement by True magazine that it will publish a story by Noah Dietrich about his 32 years as Hughes' top aide.

Dietrich, who worked for the billionaire industrialist from 1925 to 1957, said last week that he had completed a book on Hughes—the third such work to be announced since Dec. 7.

Groovy Grandma Notes Birthday

By GORDON BEARD
Associated Press Sports Writer
BOWIE, Md. (AP) — When Wilhelmina Trueman celebrates her 79th birthday next month, it won't be spent thinking about the past while rocking in front of a fireplace.

That would be a much too sedate setting for the sprightly grandmother, who thrives on action.

Mrs. Trueman admits to reading a lot, but only after she visits the race track and trains a string of six horses.

On Feb. 16, her birthday, Mrs. Trueman will arise at 4 a.m. as usual and head for Bowie Race Course. But there will be one change from her daily routine.

Instead of departing about 11 a.m. for her daughter's home in Seabrook, Md., she'll stick around to greet the winner of the day's feature race, the Queen Wilhelmina Purse.

Bowie inaugurated the race in Mrs. Trueman's honor in 1967, and right away ran headlong into the septuagenarian.

Instead of presenting a trophy, she went to the winner's circle to accept one after saddling Bronze Bout to victory on her 74th birthday.

Mrs. Trueman has been around race tracks since 1911, when she met her late husband, Elmer Trueman, at the now defunct Benning Race Track in Washington, D. C.

Trueman, a native of Canada who was a top jockey before becoming a trainer, died in 1963. A year later, Mrs. Trueman applied for her license and scored the highest mark ever recorded on the trainer's test at Delaware Park.

Mrs. Trueman trains three horses for Robert Armstrong of Hughesville, Pa., two for Dr. and Mrs. William H. Wright of Chesapeake City, Md., and one for her daughter, Frieda Reel.

"I think the key to training,"

Linda Vance Transferred To Washington

LINDA VANCE

Linda Vance, daughter of Mr. and Mrs. Chaney Vance, Route 2, Orient, has been transferred to Washington, D. C. from Chicago as a correspondent for the Journal of Commerce News Wire Services (Kansas City, Missouri). Her articles are also frequently reprinted in the Journal of Commerce (New York).

Miss Vance's main work in Washington will center on reporting Capitol Hill governmental and national influences on agricultural market commodities. The Journal of Commerce News Wire Services encompasses six areas, including U.S. commodity markets, livestock, grains, transportation, poultry and vegetables. The Journal of Commerce itself is a leading national financial paper.

Since August 1971, Miss Vance has been in the wire services' Chicago offices training as a commodities reporter in the Chicago Board of Trade, the world's largest commodities futures market. Her move to the Washington offices was in mid-December.

Miss Vance is a 1971 agricultural communications graduate of The Ohio State University and a 1967 graduate of Westfall High School. Before accepting her current employment she did free-lance writing for the Ohio Farm Bureau's magazine and was employed in editorial work at The Ohio State University, College of Agriculture and Home Economics.

Mrs. Trueman said, "is to have time and patience. That's the only way to achieve what you're going after."

"People today are always in a hurry. But I believe you're only going to win so many races a year, anyway. You've got to take time, and spot your horses in the right races."

The daily early rising doesn't

bother her, she said, "because six hours sleep is enough for anybody."

"Some people sleep their lives away. I have a lot of things to keep me busy and make myself generally useful."

Mrs. Trueman, who was once introduced on television by Ed Sullivan as an example for older people, contends retirement

is the farthest thing on her mind.

"Why retire when you're healthy? What would I do, sit around and twiddle my thumbs while waiting for judgment day?" Anyway, she recently purchased a weanling in Kentucky which she'll bring to Maryland in the fall and race next year.

Pledge Of Allegiance OK, Students Vote

CINCINNATI, Ohio (AP) — Eight out of every 10 pupils surveyed at suburban Oak Hills High School have voted not to change the Pledge of Allegiance to the flag.

The survey—by a faculty-student committee found that about the same percentage of pupils said they were dissatisfied with daily recitation of the pledge over the school's address system.

2 Former SS Officers Tried

VIENNA (AP) — The Austrian government Tuesday put on trial two wartime SS officers accused of designing the gas chambers and crematories at Auschwitz and perfecting the plant with such refinements as elevators, small-gauge railways and chutes to expedite the disposal of the bodies.

Walter Dejaco, 63, and Fritz Ertl, 64, both Austrians, are charged with treacherous murder and complicity in treacherous murder, respectively.

Both men pleaded innocent. The trial is expected to last seven weeks, and if found guilty they face prison terms ranging from one year to life.

Mrs. Trueman has been around race tracks since 1911, when she met her late husband, Elmer Trueman, at the now defunct Benning Race Track in Washington, D. C.

Trueman, a native of Canada who was a top jockey before becoming a trainer, died in 1963. A year later, Mrs. Trueman applied for her license and scored the highest mark ever recorded on the trainer's test at Delaware Park.

Mrs. Trueman trains three horses for Robert Armstrong of Hughesville, Pa., two for Dr. and Mrs. William H. Wright of Chesapeake City, Md., and one for her daughter, Frieda Reel.

"I think the key to training,"

LINDA VANCE

Linda Vance, daughter of Mr. and Mrs. Chaney Vance, Route 2, Orient, has been transferred to Washington, D. C. from Chicago as a correspondent for the Journal of Commerce News Wire Services (Kansas City, Missouri). Her articles are also frequently reprinted in the Journal of Commerce (New York).

Miss Vance's main work in Washington will center on reporting Capitol Hill governmental and national influences on agricultural market commodities. The Journal of Commerce News Wire Services encompasses six areas, including U.S. commodity markets, livestock, grains, transportation, poultry and vegetables. The Journal of Commerce itself is a leading national financial paper.

Since August 1971, Miss Vance has been in the wire services' Chicago offices training as a commodities reporter in the Chicago Board of Trade, the world's largest commodities futures market. Her move to the Washington offices was in mid-December.

Miss Vance is a 1971 agricultural communications graduate of The Ohio State University and a 1967 graduate of Westfall High School. Before accepting her current employment she did free-lance writing for the Ohio Farm Bureau's magazine and was employed in editorial work at The Ohio State University, College of Agriculture and Home Economics.

Mrs. Trueman said, "is to have time and patience. That's the only way to achieve what you're going after."

"People today are always in a hurry. But I believe you're only going to win so many races a year, anyway. You've got to take time, and spot your horses in the right races."

The daily early rising doesn't

bother her, she said, "because six hours sleep is enough for anybody."

"Some people sleep their lives away. I have a lot of things to keep me busy and make myself generally useful."

Mrs. Trueman, who was once introduced on television by Ed Sullivan as an example for older people, contends retirement

is the farthest thing on her mind.

"Why retire when you're healthy? What would I do, sit around and twiddle my thumbs while waiting for judgment day?" Anyway, she recently purchased a weanling in Kentucky which she'll bring to Maryland in the fall and race next year.

Pledge Of Allegiance OK, Students Vote

CINCINNATI, Ohio (AP) — Eight out of every 10 pupils surveyed at suburban Oak Hills High School have voted not to change the Pledge of Allegiance to the flag.

The survey—by a faculty-student committee found that about the same percentage of pupils said they were dissatisfied with daily recitation of the pledge over the school's address system.

2 Former SS Officers Tried

VIENNA (AP) — The Austrian government Tuesday put on trial two wartime SS officers accused of designing the gas chambers and crematories at Auschwitz and perfecting the plant with such refinements as elevators, small-gauge railways and chutes to expedite the disposal of the bodies.

Walter Dejaco, 63, and Fritz Ertl, 64, both Austrians, are charged with treacherous murder and complicity in treacherous murder, respectively. Both men pleaded innocent. The trial is expected to last seven weeks, and if found guilty they face prison terms ranging from one year to life.

Perk Fights To End Cleveland Cash Crisis

By ROBERT L. SHAFFER
Associated Press Writer
CLEVELAND, Ohio (AP) — There are those who say Cleveland's new mayor, Ralph Perk Sr., has a tough act to follow, succeeding Carl Stokes, who zoomed into national prominence as the first elected black mayor of a major U.S. city.

Perk agrees — but for different reasons. It's tough, says Perk, a Republican and a Stokes critic, because the city is near bankruptcy.

The city's financial plight is not new, but Perk insists it is worse than Democrat Stokes said it was.

Perk has continued a series of layoffs started by Stokes.

He also ordered 10 per cent pay cuts for himself and members of his cabinet. Before the pay cut the mayor's salary was \$35,000 a year.

He put two of the city's three luxury limousines in storage and kept the third only for visiting dignitaries.

He is continuing Stokes' plea for more federal revenue sharing.

Estimates of the city's deficit range from \$27 million to more than \$100 million.

The Greater Cleveland Growth Association paid for a private audit which showed Cleveland would end 1971 with a deficit of \$27.3 million.

Perk said it is much worse. He said an investigation turned up another \$12 million in city obligations and "shows that we owe the state police and fire pension funds in the state of Ohio over \$100 million."

Aides to Stokes had estimated the city deficit Dec. 31 at \$2 million.

Stokes started economy moves by firing 1,700 of the city's 13,000 workers. Perk laid off nearly 500 more.

The city's financial problems stem from losses in revenue coupled with rising costs.

A 5.8-mill real estate tax which had been a source of income for city operations was turned over to the school board in 1970 as Stokes anticipated voters would approve an income tax increase to bolster city operating funds.

Voters approved the transfer of the real estate levy, but rejected the income tax increase.

Perk says Cleveland "would not be in such serious trouble if it were not for the fact that we lost the \$17.5 million expected revenue from the 5.8 - mill levy in the exchange with the Board of Education and if the public had had more confidence in the previous administration."

Failure of the income tax increase "left the city in a financial crisis," Perk said.

Perk said the income tax failure was one reason Stokes decided not to run for re-election. Stokes, who was first elected in 1967, pulled out of the mayor's race in April, throwing his support to Arnold Pinkney, a

black. Perk, rated an underdog because of the low Republican registration in the city, defeated Pinkney, who ran as an Independent, and Democrat James M. Carney.

Perk virtually ignored the black community in his election campaign and he has been accused by some black leaders of racist moves since taking of

fice. Perk claims he has done more to reach out into the black community than Stokes did.

"For example," he said, "almost every place I've gone in the black community they said, 'Mr. Mayor, this is the first time any mayor has been in our church, been in our area.'"

"I'm going into every community in this city, and it's a hard job," Perk said.

He said the white ethnic community, which forms his political base and which has been a potent force in city politics for decades, needs to feel it is getting "proper recognition."

Perk, like Stokes, is making a plea for federal revenue shar-

ing as the only hope for rescuing the cities.

He says federal and state tax programs are "going to turn the cities into a dust bowl."

"The federal and state governments are drawing in the wealth of the cities," he said.

"You can't take all the wealth out of an area and not put anything back."

Guthrie Theater Back On Its Feet
MINNEAPOLIS, Minn. (AP) — The Guthrie Theater, on the verge of collapse a year ago, ended the 1971-72 season with a surplus of \$6,000.

A fund-raising drive that netted \$600,000 combined with the sale of more than 200,000 tickets during the season to pull the theater out of the red, a Guthrie spokesman said Monday.

State Workers At Muskie Meet

COLUMBUS, Ohio (AP) — Gov. John J. Gilligan put his political muscle to work Monday to make Sen. Edmund Muskie's delegate caucus a success.

Some 600 cheering Democrats were on hand at the Pick Ft. Hayes Hotel Monday night to take part in selecting 57 prospective delegates pledged to the Maine Democrat—38 delegates and 19 alternates.

Several Gilligan state department heads, many of his advisors, and a throng of secretaries from state offices were on hand with Gilligan, himself, to see that the operation ran smoothly.

YOUNGSTOWN, Ohio (AP) — A man found frozen to death in a railroad boxcar in suburban Campbell has been identified as Jesse Smallwood, 66, of Arizona.

The body was in a car which had been part of a train that was made up in Iowa earlier this month for the return of boxcars used for hauling wheat. It was found in the Pittsburgh & Lake Erie Railroad yard.

Select Honor Guard For King Frederik

COPENHAGEN (AP) — Denmark's army, navy and air force have selected the men to be honor guards at King Frederik IX's lying-in-state and funeral, and this order was issued: Long hair must be kept out of sight.

The late monarch was supreme commander of Denmark's armed forces and one known to frown at such military permissiveness as long hair and big beards, especially in the navy, to which the sailor king felt particularly attached.

Muskingum Beats Kenyon, 93-71

By THE ASSOCIATED PRESS
"You've got to see him play to believe it," Muskingum basketball Coach Jim Burson said of Gene Ford, a 5-foot-8 sophomore guard who doesn't hesitate to take on the big boys under the basket.

Ford netted a career-high 35 points in leading the Muskies to a 93-71 victory over Ohio Conference foe Kenyon Tuesday night.

"He just looked super," said Burson. "He had 11 of 13 from the floor and 13 of 16 from the line and four rebounds and five assists."

"And he did most of it inside,

At 5-8, that's the unbelievable thing about him."

Ford, who last year was the highest scoring freshman in Muskie history with 375 points and prior to that was an all-Ohio player at Indian Valley North High School, scored 23 of his 35 points in the first half and was taken out of the game with eight minutes left to play.

"If he had stayed in he could have gotten 45 points," Coach Burson said.

Muskingum jumped ahead quickly and had built up a 30-point advantage by midway through the second half. Burson then started substituting, and by

the time the buzzer sounded all 12 players on the team had scored, four of them in double figures.

Kenyon, meanwhile, had the disadvantage of playing without Marty Hunt, who was called home Tuesday because of the sudden death of his mother. Hunt is the league's second highest scorer with a 23-point average.

In another Ohio Conference game Tuesday night, Otterbein whipped Denison 75-59 as Don Manly improved his shooting average to 75.5 per cent with a perfect 7-for-7 from the field. In all, Manly scored 17 points

while teammate Jack Mehl took scoring honors with 20.

Youngstown State defeated Cleveland State 80-69 behind the 22 and 21-point performances of Bill McMeans and Billy Johnson, respectively. It was the Penguins' 12th win in 13 starts.

Elsewhere, Hiram came from behind to down Baldwin-Wallace 80-76. Bluffton smothered Cedarville 91-74 as John Brown swished 30 points. Ohio Northern tripped Heidelberg 90-84 behind Mike Merchant's 27-point shooting, and Clarion, Pa., handed Walsh its 11th loss in 13 games, 81-71.

Tiger Junior High Cagers Down Vikings

Circleville's Junior High cagers trailed 11-1 in the first quarter but came back strong to defeat Teays Valley, 39-26, Tuesday at the Roundtown gym.

After lagging behind midway through the first period the little Tigers coupled some fine defensive work with a scorching outburst by Biff Bumgarner and Mike Lawter to gain their fourth win of the year.

Teays Valley led 11-7 after one period of play but Circleville rallied to gain a 21-16 lead at halftime.

The Tigers upped the count to 32-20 at the conclusion of three cantos and were home free in the final frame.

TWELVE Tigers saw action in the contest with Bumgarner hooping 18 points to take scoring honors in the contest.

Lawter added 11 tallies. Frank Merrill four, Brent Mancini had three, George Moore two and Steve Penn one for the winners.

David Schiff led Teays Valley with 10 markers, David Barr netted nine, Rusty Rathburn had four and Brad Sherman three for the losers.

Circleville is now 4-5 for the season and will play McDowell 4:30 p.m. Thursday at Saltcreek School.

Teays Valley is 1-8 and both the seventh and eighth grade squads will be at home Tuesday with Monroe.

LE Freshmen Remain Unbeaten

The undefeated Logan Elm freshman basketball team made it eight in a row Tuesday with a 53-43 win over visiting Uniono.

The game got off to a slow start and at the end of the first period the little Braves led, 8-5. At halftime they held a 20-17 edge.

In the third period they began to find the range, jumping to a 38-25 lead. Joe Stump led the Braves with 16 points, seven from the field and two at the foul line.

Scott Pontius tallied 12, all field goals, Mitch Martin 10, Mat Martin, Derek Morris and Greg Justus three each, John Seimer, Don Maxson and Steve Marshall two each.

For the Shermans Greg Alcorn, a 6-foot-4 frosh, tallied eight points, Ron Hannan scored six and John Meehan six.

Urbana College Coach Has Best Record In Ohio

By GEORGE STRODE
Associated Press Sports Writer
URBANA, Ohio (AP) — Tall, slim and conservative appearing, Dr. John Stanley looks like a town banker or doctor rather than Urbana College's multi-talented rookie basketball coach.

In little more than half a season, the balding Stanley, 37, has become a central figure in the tiny college of 720 students and the Clampaign County city of 10,000.

He has guided the veteran Blue Knights to a 15-2 start, the Ohio's colleges.

But the coaching cap is only one of four hats worn by Stanley, a native Champaign cunatian and Ohio State graduate.

He also serves as chairman of the school's division of education and behavioral sciences, athletic director and a physical education instructor.

"There just aren't enough hours in the day to get everything done," said Stanley, who spent the last nine seasons coaching state high school teams to a combined 120-55 record.

That isn't a complaint from Stanley, who coached at Waldo, River Valley and Gahanna high schools.

"It's extremely rewarding. I spent all my formal education preparing for something like this. I love to coach, but I couldn't pick one job over the other here," he said.

"Those other things are just as important as coaching the

CINCINNATI (AP) — Ty Cline, 32, a pinch hitter and reserve outfielder, has been given an unconditional release, the Cincinnati Reds announced today.

The release cuts the Reds roster to 38 players with 11 outfielders.

basketball team," added Stanley.

The Blue Knights, with all five regulars back from last year, are rolling up points at a 106.9 average to 91 for the opposition, even though they are ineligible for a post-season tournament.

"We're only an associate member of the NAIA so we cannot go to a tournament," Stanley explained.

Mark Tod, a 6-foot senior guard from Columbus, and Jon Plunkett, 6-2 senior forward from Tipp City, average 25 points.

Center Terry Anderson, 6-5 senior from Springfield North-western, is next at 18 points and 6-3 sophomore forward Bill Aikman of Claymont Northmont and 6-foot senior guard Harold Howe from Jackson had about 14 apiece.

County Rivalries Highlight Area Cage Contests

It will be a big weekend of action for the county cagers with Teays Valley and Westfall taking to the boards both nights and Logan Elm hitting the hardwood Friday.

Teays Valley will host West Jefferson Friday and entertain Columbus Wehrle Saturday while Westfall will be at home with Logan Elm Friday and Circleville Saturday.

Coach Bob Hoover will be sending his Vikings after their third win of the season when they meet West Jeff, a team that downed the Vikings early in the season.

The Roughriders are paced by 6-foot-4 Mark Ryan and 6-foot-2 Chet Sprouse, a pair of cagers who gave the Vikings trouble in their first clash.

UTILIZING a pick and roll and give and go offense, West Jeff has been able to put points on the board. On defense they use both a 2-1-2 zone and a man to man.

Saturday the Blue and Gold will be going against the shuffle offense of Wehrle and the 2-3 zone they use on defense.

Coach Hoover will probably go with Steve Bumgarner and Jerry Sabine at the guards, Jack Brinker at center and Jeff

front.

It will be another county rivalry battle Friday night when Coach Chuck Pritchard brings his Braves to Westfall to meet the Mustangs of Coach Jeff Bigam.

This clash always produces plenty of fireworks, regardless of season records, and should be played before a capacity crowd.

The Braves will probably send Tom Sykes, Tim Justice, Alex Jones, Gary Benner and Jeff Young out to answer the opening whistle.

THEY have been a team that has put points in the record book and when they are hot, can scorch the nets from all angles.

Westfall has been hit by illness and injury this week with Mike Peterson suffering a knee injury and Tom Cook out sick. It is doubtful if either will see action this week.

Coach Bigam will go with Doug McKay and Chuck Steinhauser at the guards, Larry Harris at center and John Valone and Scott Riddle at the forward posts.

It will be more rivalry action for Westfall Saturday when the Circleville Tigers invade Mustang country.

St. Louis Cagers W in 300th For Polk

By BERT ROSENTHAL
Associated Press Sports Writer
St. Louis University had just squeaked past Bradley 64-59 in overtime, and Billikens Coach Bob Polk stood at mid-court holding a sterling silver tray with a huge "300" engraved in the center.

The award was presented Tuesday night by Ray Gerritzen, president of the Billikens Tipoff Club, and symbolized Polk's 300th career victory—a rare achievement for a college basketball coach.

The 55-year-old Polk, a native of Tell City, Ind., reached the coveted 300 figure in his 20th season of coaching. His first 13 years were at Vanderbilt, where he compiled a 197-106 record. Then, he worked four years at Trinity, Tex., winning

69 games and losing only 28, before transferring to St. Louis in 1969.

The 300th victory, which boosted St. Louis' season

record to 8-2 over-all, 2-1 in the Missouri Valley Conference, was one of Polk's toughest.

NBA West All-Stars Edge East, 112-110; West Stars

LOS ANGELES (AP) — The Eastern All-Stars proved that speed and defense can offset height and strength. Almost.

In the final outcome, though, it was Jerry West's 20-foot jump shot with one second left that provided the West team with its second consecutive National Basketball Association

All-Star game victory, 112-110, Tuesday night.

West was named most valuable player of the 22nd annual contest, even though ballots for the honor had been collected in the press box with three minutes to play, when the game was very much in doubt. All agreed, though, that West deserved the honor and it was fitting that he should make the winning shot.

Even so, it was such a balanced game that writers had a hard time determining who would win the MVP award. At one point, it looked like Boston's run-run guard Jo Jo White might earn the honor, then Detroit's Jimmy Walker drew praise, then Connie Hawkins of Phoenix, then Dave Cowens of the Celtics, then Walt Frazier of the New York Knicks and, with only seconds left, veteran Boston forward John Havlicek looked like possible selection.

But it was West, dubbed Mr. Clutch by local writers, who helped the West salvage a game it was picked to win handily. So powerful was the West team's front line that odd makers had the East an 11-point underdog at game time.

Seven-foot-two Kareem Abdul-Jabbar, Milwaukee's super-center, started as did 6-8 Spencer Haywood of Phoenix, 6-8 Bob Love of Chicago and West and Gail Goodrich of the host Lakers. Cowens, at 6-foot-9, was the East's tallest player.

But the East used its speed and great quickness to upset the West's game early. Frazier stole numerous passes, reserve White was all over the place, Bill Cunningham of Philadelphia hit a number of outside jump shots and by halftime, the East was ahead by 10, 64-54. The West couldn't get the ball inside and was hurt by lack of speed.

Then Bill Sharman of the Lakers, coaching the West, went to a quicker lineup, sending in Walker, Hawkins and Oscar Robertson with 5:25 left in the third period. Minutes later, in came Wilt Chamberlain of the Lakers and Paul Silas of Phoenix and that combination lit a fire under the West.

Sprague was 8-6 with Indianapolis and won one game for the Reds near the end of the season.

McDowell Cagers Split Pair With A-C Junior High

McDowell's seventh grade cagers downed Amanda Clearcreek, 22-16, but the Aces' eighth graders turned the tables on the McDowell eighth graders, 41-34, in a pair of games played Tuesday at Saltcreek School.

McDowell seventh graders trailed 5-4 at the end of the first period, were behind 7-6 at halftime and were on the short end of an 11-10 count after three periods of play.

But McDowell turned it on in the final canto to gain the victory.

Mark Skinner had 10 points to lead McDowell, Kenny Speakman had four, Randy Pontius and Chuck Cave had three apiece and Doug Woods two for the winners.

MIKE Cassill led the little Aces with seven tallies, Hartley had four, Rose and McKenzie each had two and Crites had one.

McDowell is now 7-2 for the season.

Amanda Clearcreek led all the way in the win over McDowell's eighth graders.

It was 18-6 at the end of the first canto, 23-12 at the half, 31-19 after the third frame and 41-34 at the final buzzer.

Steve Rawlins, who has topped all scorers in every game McDowell has played, hooped 15 points in the contest. Jeff Reichelderfer added 11 markers, Scott Allen had six and Bob Sargent two in the losing cause.

McKENZIE netted 13 points for Amanda Clearcreek, Smith had 10, Hinton seven, Wisecup and Dougherty each had four and Starnar had three in the winning effort.

McDowell is now 6-3 for the season and will play Circleville Thursday at the Saltcreek School.

Pros, Nets Widen Leads In NBA Tilts

By THE ASSOCIATED PRESS
The Memphis Pros and New York Nets increased their third-place leads in American Basketball Association play Tuesday night.

The Pros edged the Dallas Chaparrals 96-94 on Charlie Williams' layup with one second left and moved 1 1/2 games ahead of idle Denver in the Western Division.

The Nets, led by Rick Barry and John Baum, pulled away from the Floridians in the final 15 minutes for a 123-102 triumph and took a one-game lead over the losers in the East.

The only other game saw the Indiana Pacers trounce the Pittsburgh Condors 130-116.

Williams' game-winning shot gave him 39 points for the night. Donnie Freeman paced the Chaps with 28. Williams hit his big bucket after a Dallas in-bounds pass went into the backcourt with six seconds left.

Barry led the Nets against the Floridians with 32 points and Baum added 18, including 14 in the final 15 1/2 minutes. Barry's free throw with 3:31 remaining in the third period gave the Nets a 72-71 lead and Baum and Ollie Taylor helped build it to 84-77 entering the final quarter.

Muskingum Beats Kenyon, 93-71

By THE ASSOCIATED PRESS
"You've got to see him play to believe it," Muskingum basketball Coach Jim Burson said of Gene Ford, a 5-foot-8 sophomore guard who doesn't hesitate to take on the big boys under the basket.

Ford netted a career-high 35 points in leading the Muskies to a 93-71 victory over Ohio Conference foe Kenyon Tuesday night.

Pros, Nets Widen Leads In NBA Tilts

By THE ASSOCIATED PRESS
The Memphis Pros and New York Nets increased their third-place leads in American Basketball Association play Tuesday night.

The Pros edged the Dallas Chaparrals 96-94 on Charlie Williams' layup with one second left and moved 1 1/2 games ahead of idle Denver in the Western Division.

The Nets, led by Rick Barry and John Baum, pulled away from the Floridians in the final 15 minutes for a 123-108 triumph and took a one-game lead over the losers in the East.

The only other game saw the Indiana Pacers trounce the Pittsburgh Condors 130-116.

Williams' game-winning shot gave him 39 points for the night. Donnie Freeman paced the Chaps with 28. Williams hit his big bucket after a Dallas inbound pass went into the backcourt with six seconds left.

Barry led the Nets against the Floridians with 32 points and Baum added 18, including 14 in the final 15 1/2 minutes. Barry's free throw with 3:31 remaining in the third period gave the Nets a 72-71 lead and Baum and Ollie Taylor helped build it to 84-77 entering the final quarter.

1. Card of Thanks

We wish to extend our heartfelt
thanks to all who so kindly assisted
and for the words of sympathy and
beautiful floral offerings extended
at the death of our beloved wife
and mother (Josephine Shillburg).
Lawrence Shillburg
and family

The gratitude in our hearts can
never be fully expressed, for the
many acts of kindness through their
messages of sympathy, contribu-
tions, floral offerings, food and
prayers during the death of our
beloved husband and father, Harold
A. Almond. A special word of thanks
to Rev. Roy Osborn for his consoling
words, to the Deffenbaugh Funeral
Home, and the Military honors of
Lockbourne Air Force Base. All
have our everlasting appreciation.

GIVEN HONOR — Receiving a plaque for outstanding achievement in football during the 1971 season is Teays Valley senior Roy Good, right. Making the presentation in behalf of the Ashville Kiwanis Club is Larry Toole, chairman

of the Boys and Girls Committee. Good and four other players were guests of the Kiwanians Tuesday evening when Coach Richard Kidwell presented a film program on the Franklin Heights and Olentangy football matches with Teays Valley.

Ashville Kiwanis Reviews Film Of Viking Grid Season

Football may be officially dead with the Super Bowl's performance, but as long as the players have been captured on film, it can live forever. Ashville Kiwanians enjoyed a film recap of the Teays Valley High School football season at their Tuesday night meeting which hosted Coach Richard Kidwell and five members of the team.

Assistant coaches Roger Patterson and Bill Lewis, plus players Jack Brinker, Roy Good, Ken Stewart, Jim Pabst and Terry McDaniels were honored guests at the meeting which featured a narrated film presentation of 1971 high school football games and award of a plaque for outstanding achievement in that sport to Roy Good.

Nine Ashville Kiwanis members and their wives attended the Division Council meeting Monday. They included: Lt. Governor and Mrs. Howard Hosler, Mr. and Mrs. Russ Toole, Mr. and Mrs. Wayne Bisker, Mr. and Mrs. Gene Tosca, Mr. and Mrs. Gene Von Ins, Mr. and Mrs. Steve Cook, Mr. and Mrs. Everett Beers, Mr. and Mrs. Roger Southward and Don Collins.

At the council meeting a check was presented to Ohio District Governor Harold Graafmeyer for the Kiwanis International Foundation as the Ashville contribution. Personal gifts of a set of traffic light glasses were presented to the District Kiwanis head and his wife. The glasses are a current money-making project of the club and are available from members or several Ashville businesses.

Social Security Deductions Up

You may pay more in social security deduction in 1972 — but the increase will mean higher benefits in the future, according to Harry B. Bieber, social security district manager in Chillicothe.

The percentage rate of social security deductions from earnings will remain the same. But the amount of earnings subject to social security — the "earnings base" — will increase \$1,200 a year in 1972. "An employee this year will still contribute 5.2 per cent but it will be on the first \$9,000 earned work covered by social security," he said. "Last year the contribution was 5.2 per cent of the first \$7,800."

Employers pay an equal amount. Self-employed people contribute 7.5 per cent of their covered earnings to social security. People who earn more than \$7,800 a year can expect higher social security benefits in the future because the amount of the social security check is based on average earnings Mr. Bieber said. But in figuring that average, we can only count earnings on which social security contributions have been paid.

The "earnings base" that counts for social security has gone up gradually over the years as income levels have risen in the country. In 1937, when the social security program began, contributions were paid on the first \$3,000 earned in a year. The increase in the earnings base will not generally affect the monthly social security checks of the 27 million people already receiving payments except in those rare cases where a beneficiary may return to work at sufficiently high wages to raise his previous average earnings.

The social security office is located at 606 Central Center, phone 775-4950. Hours are from 8:45 a.m. to 4:45 p.m. Monday through Friday (holidays excepted).

Marriages Exceed Rate Of Divorces

By MICHELE HULSE
Herald Staff Writer

The score appears to be leaning in favor of marriage in Pickaway County, although divorces filed here are noted in some quantity.

Despite some feeling that the long-term contract is going out of style, the probate court issued 369 marriage licenses during 1971. And love knows no bounds of age. The oldest male to seek a license to marry was 75 ripe old years; the youngest was 17. A woman in her golden years — 71 years young — holds the female age title, while the most youthful age-wise was a young miss, 15.

In comparison, notes from the Clerk of Courts' office show that 247 new cases for divorce were filed during the last year, and 244 disposed. But many of these were dismissed as couples settled their differences and went back together.

Traditional June lost its spot as the bride's month again, although Tricia Nixon chose it as the month for her large White House wedding. In Pickaway County, August ranked the top month for marriage when, in 1971, the court issued 51 marriage licenses. June's issue was 38. August also ranked second in number of divorces filed.

STRANGELY enough, the month which was noted for the smallest number of marriages was also the month in which the divorce rate reached a record peak. Only 17 licenses were sought in March, but 31 divorces were put on the court docket, the highest number recorded for any one month in the past two years. The divorce rate was lowest in February and November, both with 15.

Despite information otherwise, marriages are not going out of style — at least in Pickaway County.

Kiwanians Talk To NORAD Via Long Distance Phone

A long distance phone call linked Circleville Kiwanians with North American Air Defense Command Headquarters, Colorado, as a part of General Telephone's presentation to the Kiwanis group Monday night at the Mecca Restaurant.

A question and answer session, using "hands free" phone was held with the officer of the day, Capt. George H. B. Campbell.

In his discussion, Capt. Campbell stated that there were 300 such installations in North America. He noted that the 4½ acre underground NORAD site in the Cheyenne Mountains can

maintain 800 people for 30 days. The presentation was conducted by Ed Zaisler and Kenneth Barter of General Telephone.

The meeting was conducted by Vice President Dave Gillespie. Bob Ogden, chairman of the Kiwanis Membership Development Committee, awarded a perfect attendance tab to Bertus Bennett for 23 years.

Kiwanis President Doyle Painter led a contingent of seven Kiwanians to the Division 105 Council meeting at the Desert Inn, Columbus, Monday night.

Guest speaker at that meeting was Harold W. Graafmeyer, Governor of Ohio District Kiwanis International. Painter presented him with a check from the Circleville club for the Kiwanis International Foundation.

Those attending the District meeting were Painter and his wife, Past Lt. Gov. Charles Hart and his wife, Past Lt. Gov. Ray Cundiff, Bob Wilson, Truman Eberly, Bill Fischer, Waldo Martin and Jim Shea.

Man Indicted For Placing Bank Bombs

CHICAGO (AP) — Ronald Kaufman, an AWOL Army private who authorities say may have fled the country, has been indicted on 16 counts connected with the placing of bombs in three Chicago banks.

The indictment returned Tuesday by a federal grand jury charged that on or about July 16, 1971, Kaufman carried explosive devices into the banks and put them in safety deposit boxes.

It also charged that Kaufman used the U.S. mails to send letters to news media representatives detaining what the devices were and where they could be found. The letters were mailed on Jan. 5 and 6.

The FBI has said fingerprints on the letters showed that Kaufman had handled them.

U.S. Atty. James R. Thompson, who announced the indictment in Chicago, said the FBI has completed investigations into similar bombs found at three banks in New York and three in San Francisco. No indictments have been returned in these cases.

The Chicago indictment listed four aliases for Kaufman—Christopher Charles Mohr, Christopher Curtis Mohr, James Edward Jensen and Charles E. Owens.

The FBI said Kaufman, 33, enlisted in the Army last Aug. 10 under the Jensen name. He was scheduled to be shipped overseas with his unit Jan. 9 but never showed up.

A warrant is out for his arrest. Conviction on all 16 counts could result in sentences totaling 120 years in prison.

(Continued from Page 1)
was sworn in by President Joe Bell.

Bell announced a new procedure will be inaugurated concerning the writing of ordinances. All ordinances are to be prepared and available to councilmen no later than the Saturday before council. Bell noted that many times in the past members of council do not see the ordinances until they are read at council and do not have an opportunity to study them.

Mayor Frank Barnhill reported that all ordinances passed at the first session of council had been approved.

Council finance chairman David Goldschmidt reported that all members had met with the finance committee recently to discuss the city's financial problems.

Present at last night's meeting were Bell, Crawford, Goldschmidt, Troutman, Keith Wagner, Ben Gordon, Bob Kenworthy and Harold Hoffman. Gordon, Kenworthy and Hoffman are the new members of council.

- FEBRUARY 2nd thru FEBRUARY 8th • MARCH 1st thru MARCH 7th
- FEBRUARY 9th thru FEBRUARY 15th • MARCH 8th thru MARCH 14th

Throw out all those old jelly glasses and scruffy plastic tumblers! Because now you can serve beverages proudly to your guests and family with your own set of beautiful, mono-

grammed glasses. FREE. Four 12-oz. Beverage Glasses and four 9½ oz. Double "On-the-Rocks" Glasses. Elegantly, permanently etched with your own graceful crested

monogram. Delightfully delicate rims. Rich, sculptured-looking bottoms. Just like the glassware sold in the finest department stores.

How can you get them? There's nothing to it! Just clip the FREE GLASS coupon from our newspaper ad each week, bring it in to the store, and collect a FREE monogrammed glass with a \$5.00 or more grocery purchase.

Clip a coupon a week—and at the end of 8 weeks, you'll have 8 FREE GLASSES.

And if you'd like to add more glasses to your set, you

can—for just a fraction of what they're worth. Just clip the special set-building coupon in our weekly ad; and you'll get one glass free when you buy one at our 69c price. Plus, you can buy even more glasses for your set at the special low price of only 69c each. (No coupon necessary.)

So get busy! Clip the coupons in this ad right now and collect your first FREE glass. (It's the 12-oz. size this week.) And watch our ad in this paper every week for the next eight weeks. Because we've got 8 FREE GLASSES waiting for you right now, even if your name isn't Aardvark!
